प्रस्तावना

व्यापक मॉड्यूलर सर्वेक्षण: टेलीकॉम (CMS:T) राष्ट्रीय सांख्यिकी कार्यालय (NSO), सांख्यिकी और कार्यक्रम कार्यान्वयन मंत्रालय (MoSPI) के द्वारा जनवरी-मार्च, 2025 के दौरान राष्ट्रीय प्रतिदर्श सर्वेक्षण (NSS) के 80वें दौर के हिस्से के रूप में आयोजित किया गया था। CMS:T, रा.सां.का के द्वारा लघु अवधि, केन्द्रित सर्वेक्षण को लागू करने की दिशा में एक महत्त्वपूर्ण कदम है तथा यह एक अनूठी पहल का प्रतिनिधित्व करता है जिसे विशेषतः प्रमुख टेलीकॉम तथा संबद्ध संकेतकों को तैयार करने के लिए डिजाइन किया गया है। यह सर्वेक्षण दूरसंचार विभाग (DoT) तथा इलेक्ट्रॉनिक्स एवं सूचना प्रौद्योगिकी मंत्रालय (MeiTY) के अनुरोधों के जवाब में किया गया। इसने पारिवारिक और व्यक्तिगत दोनों ही स्तरों पर मोबाइल और इंटरनेट के उपयोग के विभिन्न पहलुओं पर आंकड़े एकत्र किया। इसके अतिरिक्त, चयनित आई सी टी कौशल पर भी सूचनाएँ एकत्रित की गईं। इस सर्वेक्षण के परिणामों से संबन्धित मंत्रालयों के अंतर्राष्ट्रीय रिपोर्टिंग के दायित्त्वों को समर्थन प्राप्त होने तथा साक्ष्य पर आधारित नीति-निर्माण में सहायता मिलने की अपेक्षा की जाती है।

यह रिपोर्ट सर्वेक्षण के क्षेत्र कार्य के पूरा होने से दो महीने की अवधि के भीतर प्रकाशित की गई है। "व्यापक मॉड्यूलर सर्वेक्षण: टेलीकॉम, 2025" शीर्षक वाली रिपोर्ट में प्रस्तुत किए गए सभी आकलन जनवरी-मार्च 2025 की सर्वेक्षण अवधि के दौरान कंप्यूटर असिस्टेड पर्सनल इंटरव्यू (CAPI) पद्धति के माध्यम से एकत्र किए गए यह आंकड़ें केंद्रीय प्रतिदर्श पर आधारित हैं। यह ध्यान देना महत्वपूर्ण है कि राज्य की कोई भागीदारी नहीं थी, क्योंकि यह सर्वेक्षण मुख्य रूप से राष्ट्रीय स्तर की रिपोर्टिंग के लिए था। रिपोर्ट में एक परिचयात्मक अध्याय, सर्वेक्षण निष्कर्षों का विवरण देने वाला एक अध्याय और चार परिशिष्ट शामिल हैं। विस्तृत तालिकाएं जो कि इस रिपोर्ट का आधार हैं, परिशिष्ट ए में रखी गई हैं।

रा.सां.का. के हाउसहोल्ड सर्वे डिवीजन (HSD) ने सर्वेक्षण पद्धति का विकास एवं समंक का विधायन किया तथा इस रिपोर्ट को तैयार किया। फील्ड-वर्क क्षेत्रीय संकार्य प्रभाग (FOD) द्वारा किया गया था, जबकि समन्वय और गुणवत्ता नियंत्रण प्रभाग (C&QCD) ने इस सर्वेक्षण से संबंधित विभिन्न गतिविधियों का समन्वय किया।

मैं हाउसहोल्ड सर्वेक्षणों के तकनीकी सलाहकार समूह (TAG), एन एस एस सर्वेक्षणों के संचालन समिति और राष्ट्रीय सांख्यिकी आयोग (NSC) के सदस्यों को सर्वेक्षण के विभिन्न चरणों में उनके बहुमूल्य मार्गदर्शन के लिए बहुत आभारी हूं। मैं रा.सां.का. के विभिन्न प्रभागों के अधिकारियों द्वारा किए गए प्रयासों की सराहना भी करना चाहूंगी। मुझे उम्मीद है कि यह रिपोर्ट योजनाकारों, नीति निर्माताओं, शिक्षाविदों और शोधकर्ताओं के लिए उपयोगी होगी।

गीता.

(गीता सिंह राठौर)
महानिदेशक (रा.प्र.स.)

Preface

The Comprehensive Modular Survey: Telecom (CMS:T) was conducted by the National Statistics Office (NSO), Ministry of Statistics and Programme Implementation (MoSPI), during January – March 2025, as part of the 80th round of the National Sample Survey (NSS). CMS:T marks a significant step by NSO towards implementing short-duration, focused surveys, and represents a unique initiative specifically designed to generate key telecom and allied indicators. This survey was undertaken in response to requests from the Department of Telecommunications (DoT) and the Ministry of Electronics and Information Technology (MeitY). It collected data on various aspects of mobile and internet usage at both the household and individual levels. Additionally, information on selected ICT skills was also captured. The results of this survey are expected to support international reporting obligations of the line ministries and assist in evidence-based policy formulation.

This report is brought out within a span of two months from the completion of the fieldwork of the survey. All estimates presented in the report titled *"Comprehensive Modular Survey: Telecom, 2025"* are based on central sample data collected through the Computer Assisted Personal Interview (CAPI) method during the survey period of January – March 2025. It is important to note that there was no state participation, as the survey was primarily intended for national-level reporting. The report consists of an introductory chapter, a chapter detailing the survey findings, and four appendices. The detailed tables forming the basis of this report are provided in Appendix A.

The Household Survey Division (HSD) of NSO undertook the development of survey methodology, processed the data and prepared this report. The fieldwork was carried out by Field Operations Division (FOD), while the Coordination and Quality Control Division (C&QCD) coordinated various activities pertaining to this survey.

I am highly thankful to the members of the Technical Advisory Group (TAG) for Household Surveys, Steering Committee for NSS surveys and National Statistical Commission (NSC) for their valuable guidance at various stages of the survey. I would also like to place on record my appreciation for the efforts made by the officers of different Divisions of NSO. I hope this report will be found useful by planners, policymakers, academicians and researchers.

New Delhi
May, 2025

(Geeta Singh Rathore)
Director General (NSS)

मुख्य आकर्षण

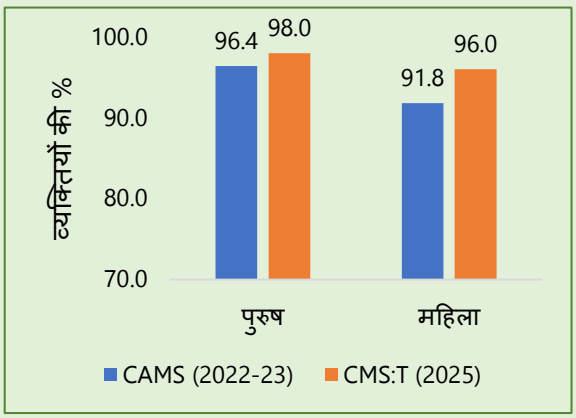

यह रिपोर्ट जनवरी-मार्च, 2025 के दौरान आयोजित एन.एस.एस के 80 वें दौर के व्यापक मॉड्यूलर सर्वेक्षण: टेलीकॉम (CMS:T), 2025 पर आधारित है। सर्वेक्षण 4,382 प्रथम चरण इकाइयों यानी ग्रामीण क्षेत्रों में गांवों और शहरी क्षेत्रों में शहरी ब्लॉकों (ग्रामीण क्षेत्रों में 2,395 और शहरी क्षेत्रों में 1,987) में फैला हुआ था, जिसमें 34,950 घरों (ग्रामीण क्षेत्रों में 19,071 और शहरी क्षेत्रों में 15,879) और 1,42,065 व्यक्ति (ग्रामीण क्षेत्रों में 82,573 और शहरी क्षेत्रों में 59,492) शामिल थे।

मुख्य निष्कर्ष

मोबाईल फोन का प्रयोग

15 से 29 वर्ष के आयु वर्ग के व्यक्तियों में, सर्वेक्षण की तिथि से पूर्व पिछले तीन महीनों के दौरान लगभग 97.1 प्रतिशत व्यक्तियों ने मोबाइल फोन (स्मार्ट फोन सहित) का उपयोग करने की सूचना दी है।

2025 और 2022-23 के दौरान 15-29 वर्ष के आयु वर्ग में मोबाइल फोन (स्मार्ट फोन सहित) का उपयोग करने वाले व्यक्तियों की प्रतिशतता

सर्वेक्षण की तिथि से पिछली तीन महीनों की अवधि के दौरान, 15-29 वर्ष के आयु वर्ग में जिन व्यक्तियों ने मोबाइल फोन के उपयोग की जानकारी दी, उनमें से लगभग 97.6 प्रतिशत पुरुष और 95.2 प्रतिशत महिलाओं ने स्मार्ट फोन का उपयोग करने की सूचना दी। व्यक्तिगत स्तर पर, समान आयु वर्ग के लिए स्मार्ट फोन का उपयोग 96.4 प्रतिशत अनुमानित है।

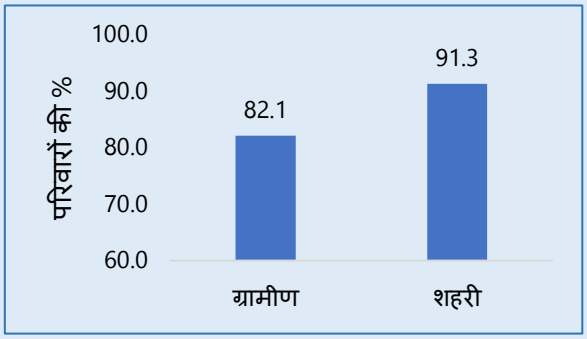

मोबाइल स्वामित्व

ग्रामीण इलाकों में 15 साल और उससे अधिक उम्र वर्ग के जो लोग मोबाइल फोन रखते हैं, उनमें लगभग 79.2 प्रतिशत पुरुषों और 75.6 प्रतिशत महिलाओं के पास स्मार्टफोन है। जबकि, शहरी क्षेत्र में इसी आयु वर्ग के लिए पुरुष और महिला के लिए प्रतिशतता क्रमशः लगभग 89.4 और 86.2 प्रतिशत अनुमानित है।

सर्वेक्षण की तिथि तक लगभग 94.4 प्रतिशत ग्रामीण परिवारों और 96.6 प्रतिशत शहरी परिवारों के पास मोबाइल फोन (स्मार्ट फोन सहित) था।

कम से कम एक स्मार्ट फोन रखने वाले परिवारों की प्रतिशतता

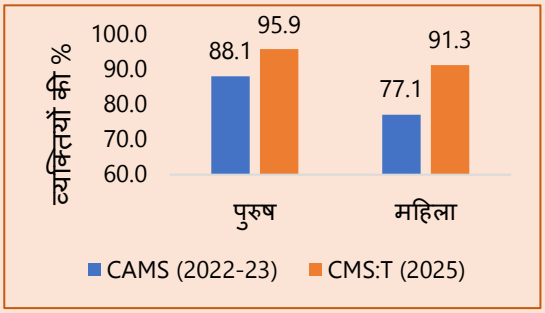

इंटरनेट का उपयोग

ग्रामीण इलाकों में, 15-29 साल के आयु वर्ग में सर्वेक्षण की तिथि से पूर्व पिछले तीन महीनों में लगभग 92.7 प्रतिशत लोगों ने इंटरनेट का इस्तेमाल किया। शहरी क्षेत्रों में इसी आयु वर्ग में इंटरनेट का उपयोग 95.7 प्रतिशत अनुमानित है।

2025 और 2022-23 के दौरान 15-29 वर्ष आयु वर्ग में इंटरनेट का उपयोग करने वाले व्यक्तियों का प्रतिशत

- ✓ सर्वेक्षण की तिथि तक, ग्रामीण क्षेत्रों में लगभग 83.3 प्रतिशत परिवारों और शहरी क्षेत्रों में लगभग 91.6 प्रतिशत परिवारों के पास घरेलू परिसरों के भीतर इंटरनेट सुविधा उपलब्ध है।
- ✓ अखिल भारतीय स्तर पर लगभग 14.0 प्रतिशत शहरी परिवारों और 3.2 प्रतिशत ग्रामीण परिवारों के पास ऑप्टिकल फाइबर के माध्यम से इंटरनेट कनेक्शन उपलब्ध है।

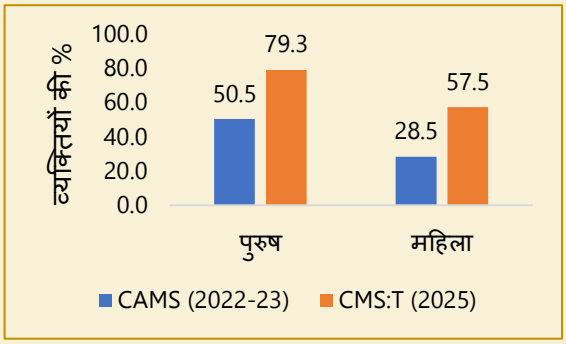

डिजिटल लेनदेन

अखिल भारतीय स्तर पर 15-29 आयु वर्ग के 68.7 प्रतिशत लोगों ने मोबाइल या कंप्यूटर का उपयोग करके ऑनलाइन बैंकिंग लेनदेन करने की अपनी क्षमता की सूचना दी है। इसी आयु वर्ग में, ग्रामीण क्षेत्रों में यह आंकड़ा लगभग 63.4 प्रतिशत और शहरी क्षेत्रों में 79.7 प्रतिशत है।

15-29 वर्ष के आयु वर्ग में जिन्होंने ऑनलाइन बैंकिंग लेनदेन करने की क्षमता की सूचना दी है, उन में लगभग 99.5 प्रतिशत लोगों ने यूपीआई के माध्यम से ऑनलाइन बैंकिंग लेनदेन करने की क्षमता की सूचना दी ।

15-29 वर्ष के आयु वर्ग में ऑनलाइन बैंकिंग लेनदेन करने में सक्षम व्यक्तियों की प्रतिशतता

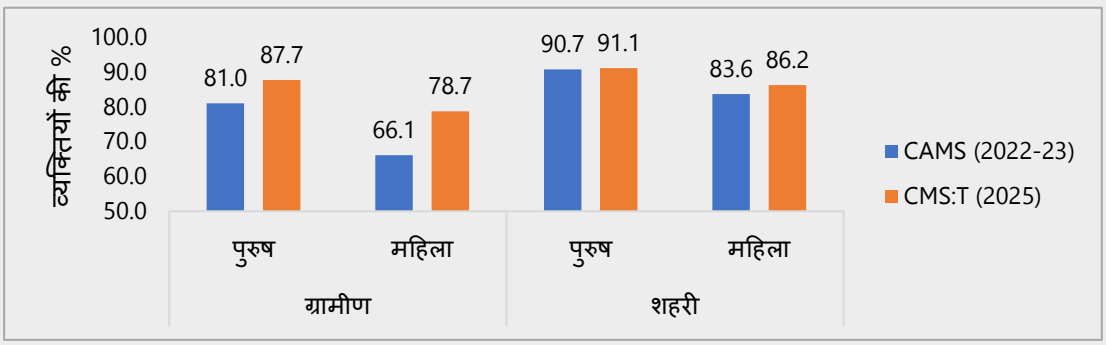

आईसीटी कौशल

15-29 वर्ष की आयु के व्यक्तियों में, सर्वेक्षण की तिथि से पूर्व लगभग 85.1 प्रतिशत ने पिछले तीन महीनों के दौरान 'संलग्न फाइलों (जैसे, दस्तावेज, चित्र, वीडियो) के साथ संदेश भेजने (यथा- ई-मेल, संदेश सेवा, एसएमएस)' में अपनी सक्षमता की सूचना दी है। इसी आयु वर्ग में, सर्वेक्षण की तिथि से पूर्व लगभग 88.8 प्रतिशत पुरुषों और 81.1 प्रतिशत महिलाओं ने पिछले तीन महीनों के दौरान इस कौशल के निष्पादन की सूचना दी।

सर्वेक्षण की तिथि से पूर्व पिछले तीन महीनों के दौरान 15-29 वर्ष की आयु वर्ग में संलग्न फाइल के साथ संदेश भेजने में सक्षम व्यक्तियों का प्रतिशतता

Highlights

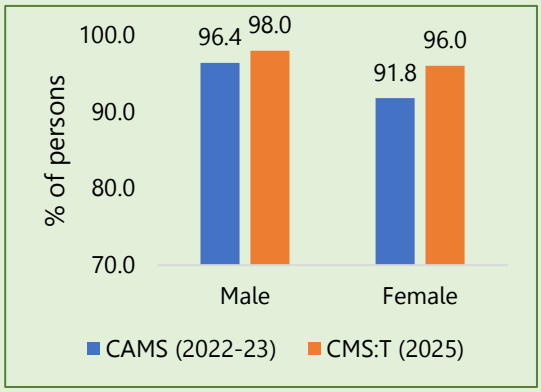

The report is based on the Comprehensive Modular Survey: Telecom (CMS: T), 2025 of the NSS 80th round conducted during January - March, 2025. The survey was spread over 4,382 first-stage units i.e. villages in rural areas and urban blocks in urban areas (2,395 in rural areas and 1,987 in urban areas) covering 34,950 households (19,071 in rural areas and 15,879 in urban areas) and 1,42,065 persons (82,573 in rural areas and 59,492 in urban areas).

Key findings

Use of mobile phone

Among the individuals in the age group 15-29 years, approximately 97.1 percent persons reported using a mobile phone (including smartphones) during the last three months from the date of survey.

Percentage of persons used mobile phone (including smartphone), in the age group 15-29 years, during 2025 and 2022-23

Approximately 97.6 percent male and 95.2 percent female, in the age group 15-29 years, reported use of a smartphones during the last three months from the date of survey among the individuals who reported use of a mobile phone during the same reference period. At person level the use of smartphone, for the same age group, estimated at 96.4 percent.

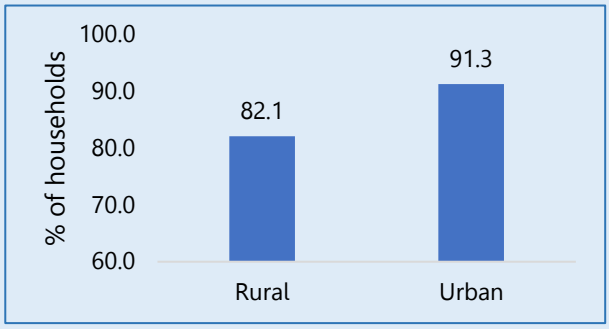

Mobile ownership

In rural area around 79.2 percent males and 75.6 percent females in the age group '15 years and above' own a smartphone among those who own a mobile phone. Whereas, in urban area the percentage estimated at around 89.4 and 86.2 percent for male and female, respectively, for the same age group.

Around 94.4 percent rural households and 96.6 percent urban households possessed a mobile phone (including smartphone), as on date of survey.

Percentage of households possess at least one smartphone

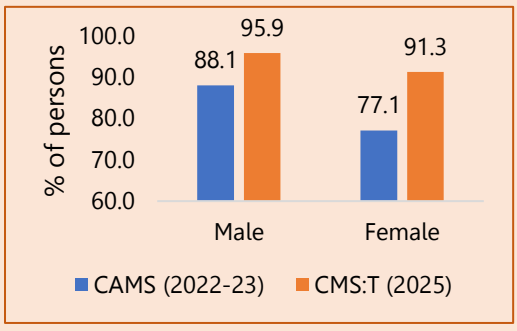

Use of internet

In rural area, around 92.7 percent persons in the age group 15-29 years used internet during last three months preceding the date of survey. In urban areas the use of internet, in the same age group, estimated at 95.7 percentage.

Percentage of persons used internet, in the age group 15-29 years, during 2025 and 2022-23

- ✓ In rural areas around 83.3 percent households and in urban areas approximately 91.6 percentage households having access to internet facility within household premises, as on the date of survey.
- ✓ Around 14.0 percent urban households and 3.2 percent rural households having internet connection through an optical fiber at all-India level.

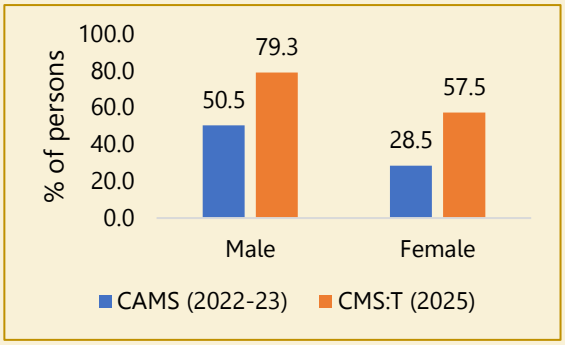

Digital transactions

Around 68.7 percent of persons, aged 15-29 years, reported ability to perform online banking transaction using mobile or computer at all-India level. In the same age group, the figure stands around 63.4 percent in rural areas and 79.7 percent in urban areas.

In the age group 15-29 years, around 99.5 percent of person reported ability to perform online banking transaction through UPI, among those persons who reported ability to perform online banking transactions.

Percentage of persons, in the age group 15-29 years, able to perform online banking transaction

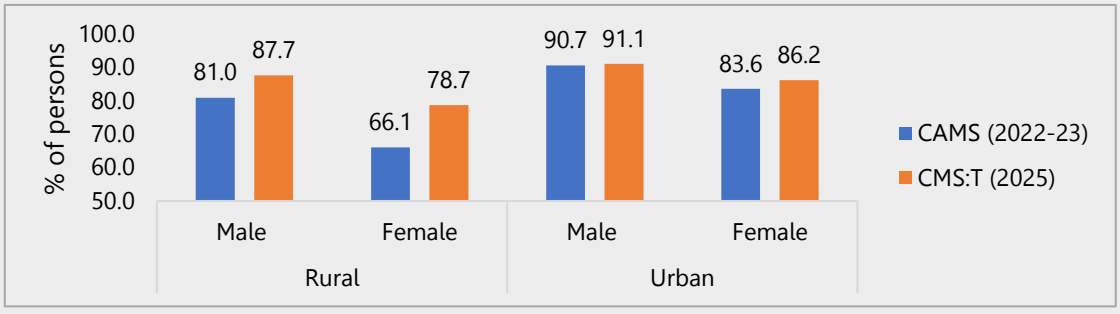

ICT Skill

Among the persons aged 15-29 years, around 85.1 percent reported execution of skill of 'sending messages (e.g., e-mail, messaging service, SMS) with attached files (e.g., documents, pictures, video)' during the last three months preceding the date of survey. In the same age group, around 88.8 percent of males and 81.1 percent of females reported execution of the skill during last three months preceding the date of survey.

Percentage of persons, aged 15-29 years, executed the skill of sending message with attached file during last three months preceding the date of survey

1 Introduction

The National Statistical Office (NSO), Ministry of Statistics and Programme Implementation (MoSPI), conducted the Comprehensive Modular Survey: Telecom (CMS: Telecom) during the period January to March 2025. This survey was undertaken as part of the 80th round of the National Sample Survey (NSS).

While earlier rounds of NSO surveys have included information on mobile phone usage, internet access, and related indicators as part of broader survey modules, the CMS: Telecom is the first focused survey to assess the usage of mobile phones, internet access and ICT skills in the country. The latest data on this subject prior to this survey, was collected by NSS during the 79th round (July, 2022 to June, 2023). Designed as a short-duration survey, the CMS: Telecom mainly aims to generate national-level estimates to support global reporting requirements of the concerned line ministries/ departments. However, disaggregated estimates at the sub-national level have also been presented in the report.

The findings from this survey aim to bridge the existing data gap identified by the Department of Telecommunications (DoT) and the Ministry of Electronics and Information Technology (MeitY). Furthermore, the survey provides insight on the sectoral and gender gaps in digital connectivity and usage.

1.1 Objective

The primary objective of the CMS: Telecom survey is to collect comprehensive information on the usage and ownership of mobile phones and internet services among individuals. The survey aims to capture key indicators such as mobile ownership, frequency of internet usage, types of devices used to access the internet etc.

Additionally, it captures data on individuals' ability to perform online activities such as banking and purchasing goods, as well as their proficiency in executing specific ICT-related skills. At the household level, the survey collects information on the availability of assets and services related to mobile and internet connectivity, including landline telephones and internet connections through optical fiber cables.

1.2 Survey Coverage

The survey was designed to cover the whole of the Indian Union except a few inaccessible villages in the Andaman and Nicobar Islands. The CMS: Telecom survey was conducted in 2,395 villages and 1,987 urban blocks covering 34,950 households (19,071 in rural areas and 15,879 in urban areas) and 1,42,065 persons (82,573 in rural areas and 59,492 in urban areas). The distribution of the villages/urban blocks and households surveyed across different States/UTs for rural and urban areas is given in Appendix A.

1.3 Schedule of enquiry

The data for the survey was collected using CMS: Telecom schedule specifically designed for this purpose. The fieldwork for the central sample was carried out by the Field Operations Division (FOD) of the NSO. It is important to note that there was no State participation in this survey.

1.4 Sample design

A stratified multi-stage design was adopted for the CMS: Telecom survey. The first stage units (FSU) were villages/ sub-units (SUs)/ sub-divisions in the rural sector and UFS blocks/SUs/ sub-divisions in the urban sector. The ultimate stage units (USU) were households in both rural and urban sectors. From each selected FSU, 8 households were selected with SRSWOR. While household-level information was collected from all selected households, the person-level information from selected households was collected for individuals belonging to specific age groups (e.g., '3 years and above' / '15 years and above'), depending upon the nature of the collected information. No

Second Stage Stratification (SSS) criteria was adopted for the selection of households in this survey.

1.5 Content of the report

This report is structured into two chapters and four appendices. Chapter One (current chapter) serves as the introductory chapter, while Chapter Two presents the Summary of Findings. The report gives estimates of key indicators, both at the national and the State/UT level. The detailed National/ State/ UT-level tables, along with the Relative Standard Error (RSE) for selected key indicators, are given in Appendix A. Due to the rounding-off effect, some of the row and column totals may not add up exactly. Further, separate estimates for transgender persons have not been generated, however, they have been included under the category of 'persons'. Appendix B outlines key concepts and definitions used in the survey. The details of the survey methodology and estimation procedure are given in Appendix C. Further, Appendix D contains a *facsimile* of schedule CMS: Telecom.

1.6 Note for readers

The survey was not designed for state-level estimates, however, the same has been presented in this report based on available sample observations. Thus, the interpretation of survey results should be performed considering the sample size in a specific domain and the RSE associated with the estimates. Additionally, the survey-based estimated totals are used exclusively to compute the rates and ratios only. It may not be prudent to use the survey-based estimated totals to interpret any results in absolute terms.

2 Survey Findings

This chapter presents the key findings of the CMS: Telecom survey, highlighting patterns in mobile phone usage, internet usage, digital activity, execution of ICT skills, etc., at both the individual and household levels. Wherever applicable, disaggregated estimates by age group, gender and sector are also provided. Summary statements offered a snapshot of major indicators at the all-India level. Additionally, comparative statements with corresponding indicators from the 79th round of NSS (2022-23), wherever available, are included to provide insights into changes over time.

2.1 Mobile and Internet

The survey collected information on the usage of mobile and internet for individuals in the age group '3 years and above'. Detailed information was also collected on the types of portable devices and networks used to access the internet. Additionally, efforts were made to capture information on the ownership status of the mobile devices being used. Estimates for various indicators are presented in the following sub-sections, disaggregated by specific age groups.

2.1.1 Use of mobile phone

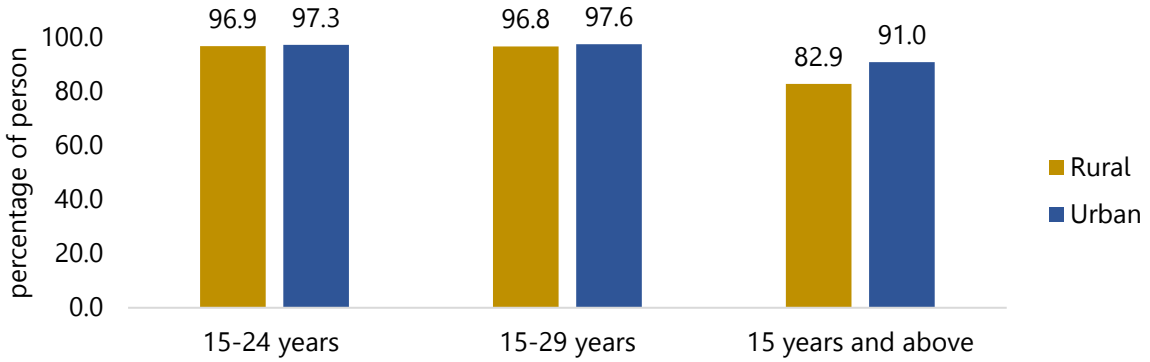

Statement 1 gives the percentage of persons who used a mobile phone, at least once, during last three months preceding the date of survey, for making personal calls and/ or accessing the internet, for different age groups and genders at the all-India level. Figure 1.1 presents sector-wise estimates of the indicator. The corresponding State/UT level estimates are given at Table 1 in Appendix A.

Statement 1: Percentage of persons who used mobile telephones, at least once, during the last three months preceding the date of the survey for making personal calls and/ or accessing internet

all-India

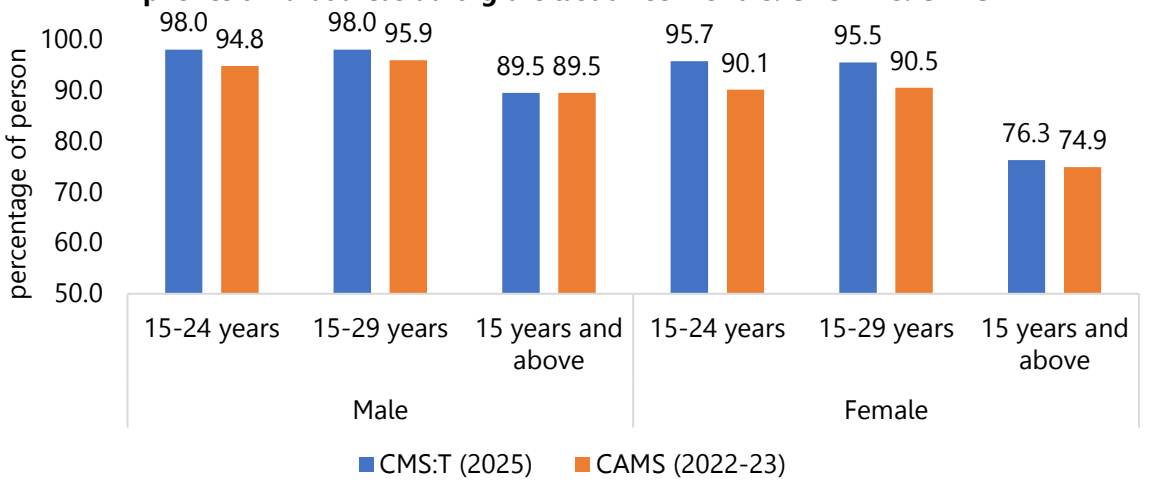

Age group (years)	Male	Female	Parsons
15-24	97.8	96.1	97.0
15-29	98.0	96.0	97.1
15+	91.4	79.8	85.7

Fig. 1.1: Percentage of persons who used mobile telephones, at least once, during the last three months preceding the date of the survey

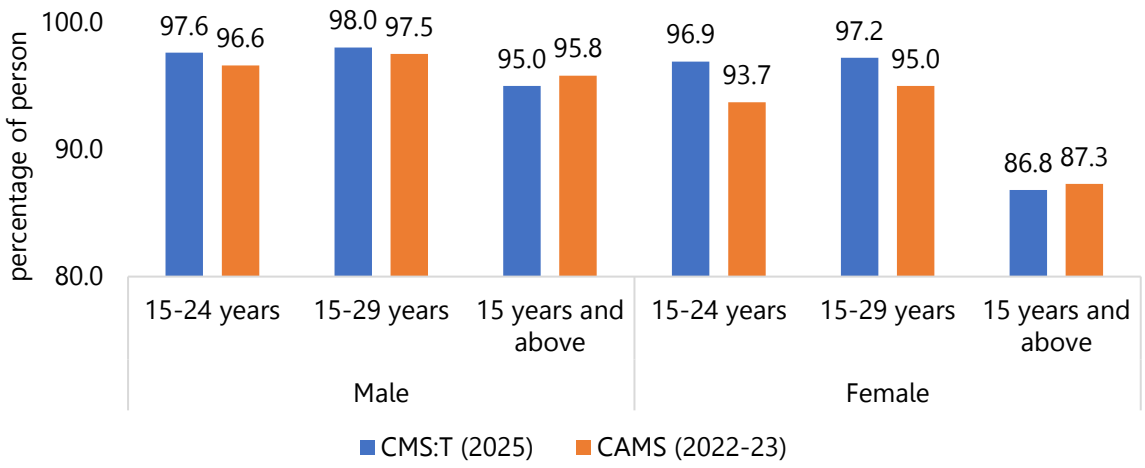

Figures 1.2 and 1.3 present gender and sector-wise estimates of the percentage of persons who used mobile phone at the all-India level across different age groups. The figures also present a comparison of these estimates with those reported in CAMS 2022–23[1].

Fig. 1.2: Comparison of the percentage of persons who used mobile phones in rural areas during the last three months: CMS-T vs. CAMS

[1] In CAMS, a person was classified as a mobile phone user if s/he used a mobile with an active sim card, at least once, during the last three months preceding the date of the survey.

Fig. 1.3: Comparison of the percentage of persons who used mobile phones in urban areas during the last three months: CMS-T vs. CAMS

Statement 1.1 presents the percentage of persons by types of mobile phones used among the individuals who reported use of a mobile phone at least once during the past three months, by age group, at the all-India level. The State/UT-level estimates are provided in Table 1.1 of Appendix A.

Statement 1.1: Percentage of persons by type of mobile phone used among the individuals who reported use of mobile phone during last three months preceding the date of survey

all-India

Age group (years)	Smart phone only			Other than smart phone only			Both smart phone and other than smart phone		
	Rural	Urban	All	Rural	Urban	All	Rural	Urban	All
15-24	87.1	91.1	88.4	3.6	1.3	2.9	9.3	7.5	8.7
15-29	87.0	91.2	88.3	4.3	2.0	3.6	8.7	6.9	8.1
15+	72.6	82.9	76.3	20.7	11.4	17.4	6.7	5.7	6.4

2.1.2 Ownership of mobile phone

In this survey, an individual is considered to own a mobile cellular phone if he or she has a mobile device with an active SIM card for personal use, including the cases where the phone is not registered in the individual's name. While determining ownership,

joint ownership of a single mobile phone is not considered; in such cases, ownership is determined based on the majority use criterion. Statement 2 gives the percentage of persons who own a mobile telephone, as on the date of the survey, for different age groups and genders at the all-India level. Figure 2.1 presents sector-wise estimates, while Figures 2.2 and 2.3 provide gender and sector-wise estimates of the percentage of persons who own a mobile phone, as on the date of survey, at all-India level. The corresponding State/UT level estimates are given at Table 2 in Appendix A.

Statement 2: Percentage of persons who own a mobile telephone as on date of the survey

all-India

Age group (years)	Male	Female	Parson
15-24	77.5	57.2	67.8
15-29	83.3	63.0	73.4
15+	83.9	56.2	70.2

Fig. 2.1: Percentage of persons own a mobile phone as on date of survey

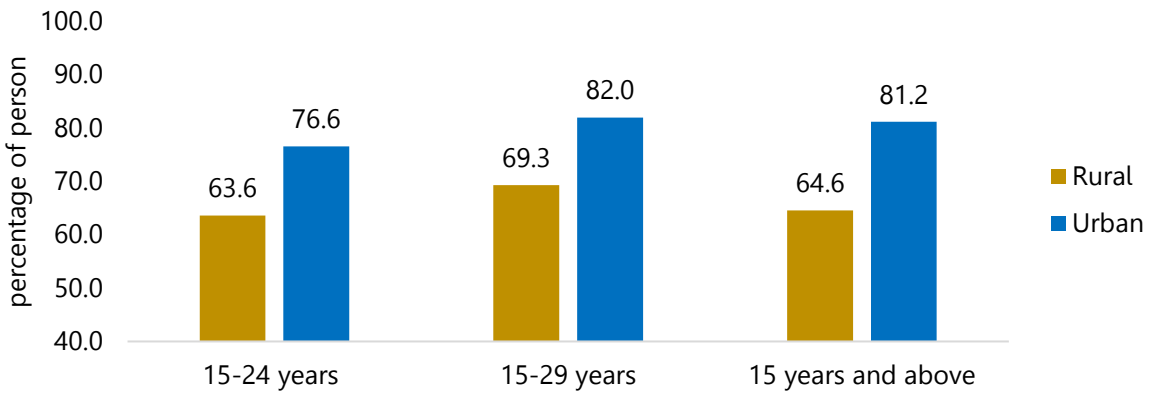

Fig. 2.2: Percentage of persons own a mobile phone as on date of survey in rural areas

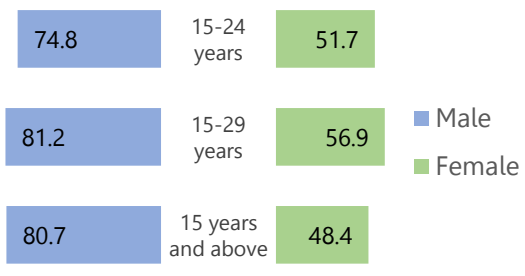

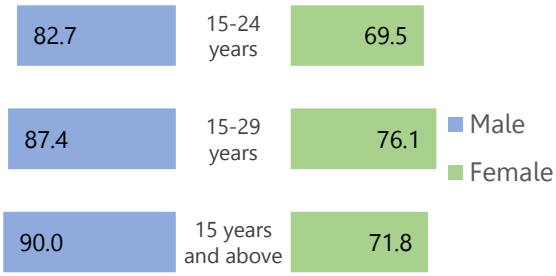

Fig. 2.3: Percentage of persons own a mobile phone as on date of survey in urban areas

Statement 2.1 presents the percentage of persons by type of mobile phone owned among individuals who reported owning a mobile phone as on the date of the survey, across different age groups at the all-India level. The corresponding State/UT-level estimates are provided in Table 2.1 of Appendix A.

Statement 2.1: Percentage of persons by type of mobile phone owned among individuals who reported owning a mobile phone as on date of survey

all-India

Age group (years)	Smart phone			Other than smart phone			Both smart phone and other than smart phone		
	Rural	Urban	All	Rural	Urban	All	Rural	Urban	All
15-24	93.9	96.0	94.6	3.6	1.8	2.9	2.5	2.2	2.4
15-29	93.0	95.3	93.8	4.6	2.4	3.8	2.5	2.3	2.4
15+	76.0	85.9	79.9	22.1	12.0	18.2	1.9	2.1	2.0

2.1.3 Use of internet

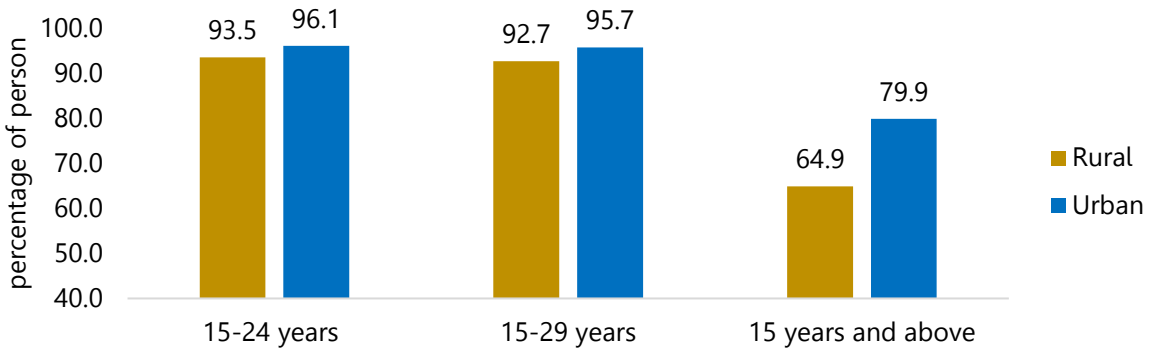

In this survey, internet use refers to accessing internet, at least once during last three months, from any location, using any device and for any purpose. Statement 3 gives the percentage of persons who used internet using any device, at least once, during the last three months preceding the date of the survey, from any location and for any purpose, for different age groups and genders at the all-India level. Figure 3.1 presents sector-wise estimates of the indicator. The corresponding State/UT level estimates are given at Table 3 in Appendix A.

Statement 3: Percentage of persons who used internet, at least once, during the last three months preceding the date of the survey

all-India

Age group (years)	Male	Female	Parson
15-24	96.1	92.3	94.3
15-29	95.9	91.3	93.6
15+	76.7	63.1	70.0

Fig. 3.1: Percentage of persons who used internet, at least once, during the last three months preceding the date of the survey

Figures 3.2 and 3.3 present gender and sector-wise estimates of the percentage of persons who used the internet, at least once, during the last three months preceding the date of the survey at the all-India level across different age groups. The figures also present a comparison of these estimates with those reported in CAMS 2022–23.

Fig. 3.2: Comparison of the percentage of persons who used internet in rural areas during the last three months: CMS-T vs. CAMS

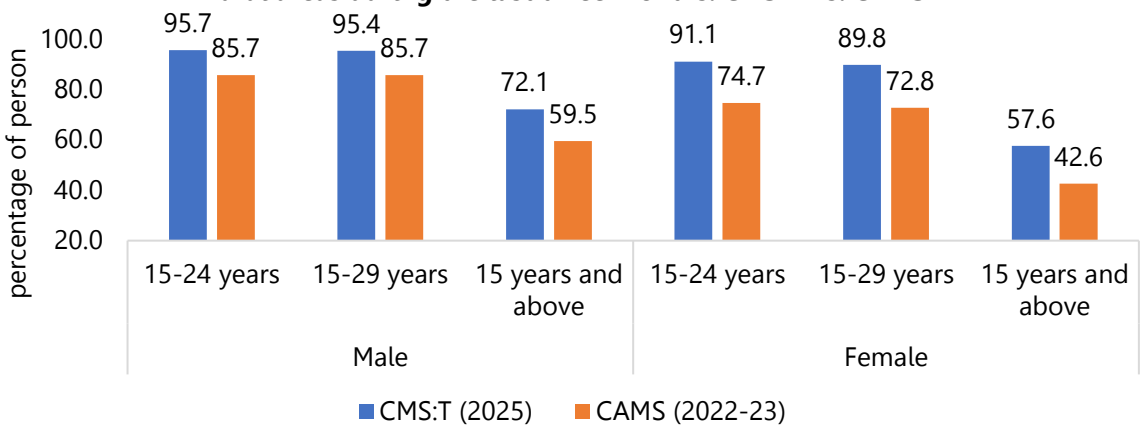

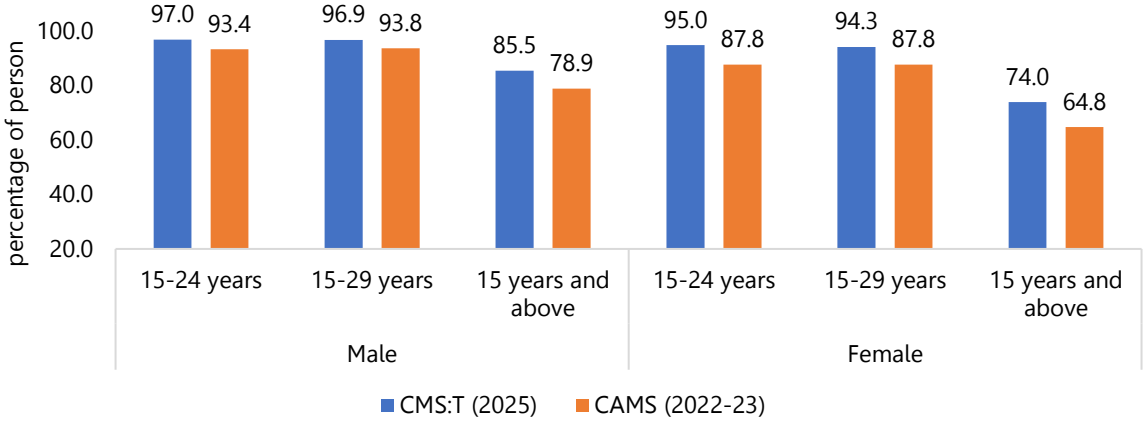

Fig. 3.3: Comparison of the percentage of persons who used internet in urban areas during the last three months: CMS-T vs. CAMS

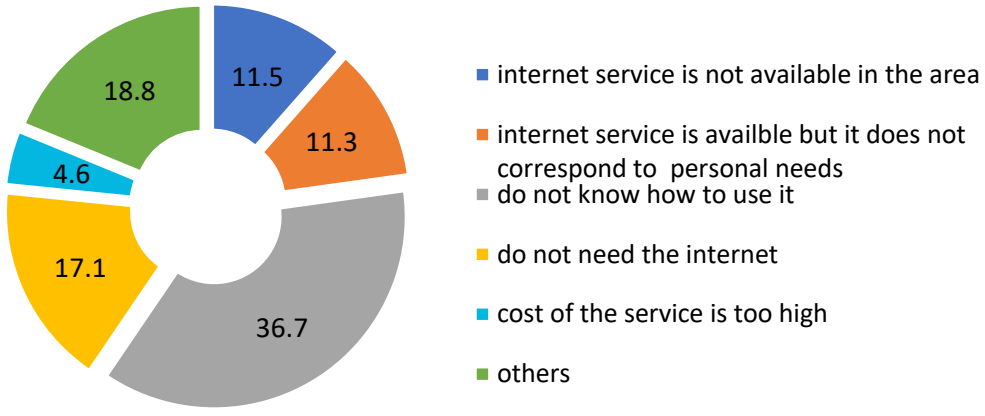

Statement 3.1 presents the percentage of persons who reported being able to use the internet but did not use it during the last three months preceding the date of the survey, across different age groups at the all-India level. The major reason for not using internet were collected for the categories viz., (i) internet service is not available in the area, (ii) internet service is available but it does not correspond to personal/household needs, (iii) do not know how to use it, (iv) don't know what internet is, (v) do not need the internet, (vi) not allowed to use the internet, (vii) cost of equipment is too high, (viii) cost of the service is too high, (ix) lack of local content, (x) privacy or security concerns, (xi) others. Figure 3.4 presents the percentage of persons in the age group '15 years and above' who reported being able to use the internet but did not use it during the last three months preceding the date of the survey, by the major reasons for non-usage. In Figure 3.4, among the reasons indicated, 'others' include all remaining reasons that are not individually represented. The all-India level estimates in different gender-sector and for different age groups are given at Table 3.1 in Appendix A.

Statement 3.1: Percentage of persons who reported being able to use the internet but did not use it during the last three months preceding the date of the survey

all-India

Age group (years)	Male	Female	Parson
15-24	0.3	0.6	0.4
15-29	0.3	0.6	0.5
15+	0.7	1.0	0.8

Fig 3.4: Percentage disrtibution of persons who reported being able to use the internet but did not use it during the last three months preceding the date of the survey, by the major reasons for non-usage in the age group '15 years and above'

2.1.4 Frequency of internet use

The survey collected information on the frequency of internet use among the individuals who used the internet at least once during the last three months preceding the date of survey. The information on internet use frequency was collected in three broader categories, viz., 'at least once in a day', 'at least once in a week but not every day', and 'not in every week'. Statement 4 gives the percentage of persons who accessed the internet during the last three months by frequency of internet use in different age groups and sectors, at the all-India level. The corresponding State/UT level estimates are given at Table 4 in Appendix A.

Statement 4: Percentage of persons who accessed internet during last three months by frequency of internet use

all-India

Age group	At least once in a day			At least once in a week but not every day			Not in every week		
	Rural	Urban	All	Rural	Urban	All	Rural	Urban	All
15-24	90.0	93.4	91.1	9.3	5.8	8.1	0.7	0.8	0.8
15-29	91.4	94.6	92.4	8.0	4.9	6.9	0.7	0.6	0.6
15+	91.3	94.8	92.7	8.0	4.7	6.7	0.7	0.5	0.6

2.1.5 Type of portable device and portable network used to access internet

The survey collected information on the type of portable device and portable network used majority of time to access the internet from the individuals who used portable devices and networks to access the internet. The information was collected for the combinations of portable device and portable network used as (i) mobile phone and mobile data, (ii) mobile phone and wifi, (iii) tablet and mobile data, (iv) tablet and wifi, (v) laptop etc. and mobile data, (vi) laptop etc. and wifi, (vii) other portable device and mobile data, (viii) other portable device and wifi and (ix) others. Statement 5 gives the percentage of persons who accessed the internet during last three months preceding the date of survey by type of portable device and portable network used majority of

time to access internet, in the age group '15 years and above', at the all-India level. The corresponding State/UT level estimates are given at Table 5 in Appendix A.

Statement 5: Percentage of persons of age '15 years and above' by type of portable device and portable network used majority of time to access the internet during last three months preceding the date of survey

all-India

Type of portable device and portable network used	Rural	Urban	All
Mobile phone and mobile data	98.1	88.6	94.4
Mobile phone and wifi	1.3	9.5	4.5
Tablet and mobile data	0.4	0.3	0.3
Others*	0.2	1.5	0.8

*Others includes all remaining combination of portable device and portable network that are not represented in Statement 5.

2.2 ICT Skills

In this survey information was collected on ability of individuals aged '15 years and above' to perform certain ICT skills. In addition, the survey also captured whether these individuals had executed some of these skills at least once during last three months preceding the date of survey. Here, it is to be noted that information on the execution/ability to perform the ICT skills was collected based on the reporting of the informants only. While collecting this information, no tests of the skills of the informants were performed. The estimates relating to the ability and execution of various ICT skills are presented in the subsequent sub-sections.

2.2.1 Sent messages with attached file

Statement 6 shows the percentages of persons who reported executing the skill of 'sent messages (e.g., e-mail, messaging service, SMS) with attached files (e.g., documents, pictures, video)', using mobile or computer-like devices, at least once, during the last three months preceding the date of survey at the all-India level for

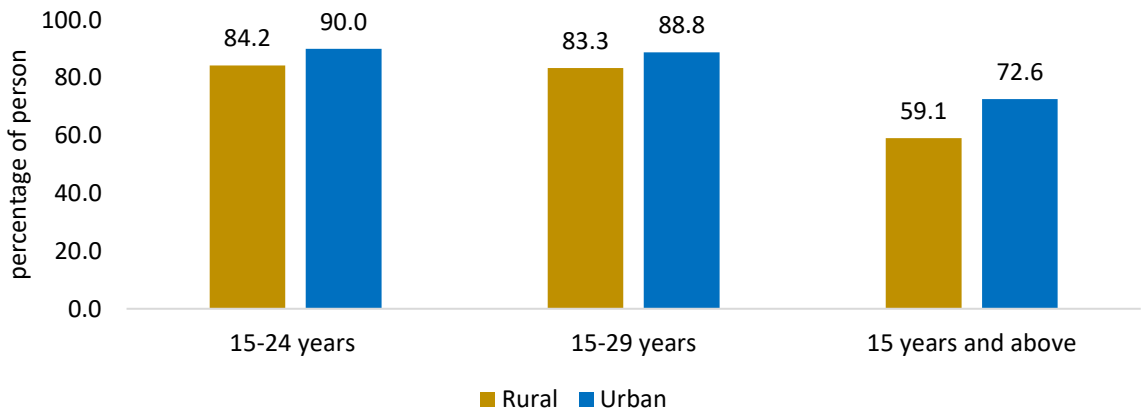

different age groups. Figure 4.1 presents sector-wise estimates of the indicator. The corresponding State/UT level estimates are given at Table 6 in Appendix A.

Statement 6: Percentage of persons reported execution of the skill of 'sent messages (e.g., e-mail, messaging service, SMS) with attached files (e.g., documents, pictures, video)', using mobile or computer-like devices, during the last three months preceding the date of survey

all-India

Age group (years)	Male	Female	Parson
15-24	89.1	82.7	86.0
15-29	88.8	81.1	85.1
15+	71.3	55.9	63.6

Fig 4.1: Percentage of persons reported execution of the skill of 'sent messages (e.g., e-mail, messaging service, SMS) with attached files (e.g., documents, pictures, video)'

Figures 4.2 and 4.3 present gender and sector-wise estimates of the percentage of persons who executed the skill of 'sent messages (e.g., e-mail, messaging service, SMS) with attached files (e.g., documents, pictures, video)', at least once, during the last three months preceding the date of the survey at the all-India level across different age groups. The figures also present a comparison of these estimates with those reported in CAMS 2022–23.

Fig 4.2: Comparison of the percentage of persons reported execution of the skill of 'sent messages (e.g., e-mail, messaging service, SMS) with attached files (e.g., documents, pictures, video)' in rural areas: CMS-T vs. CAMS

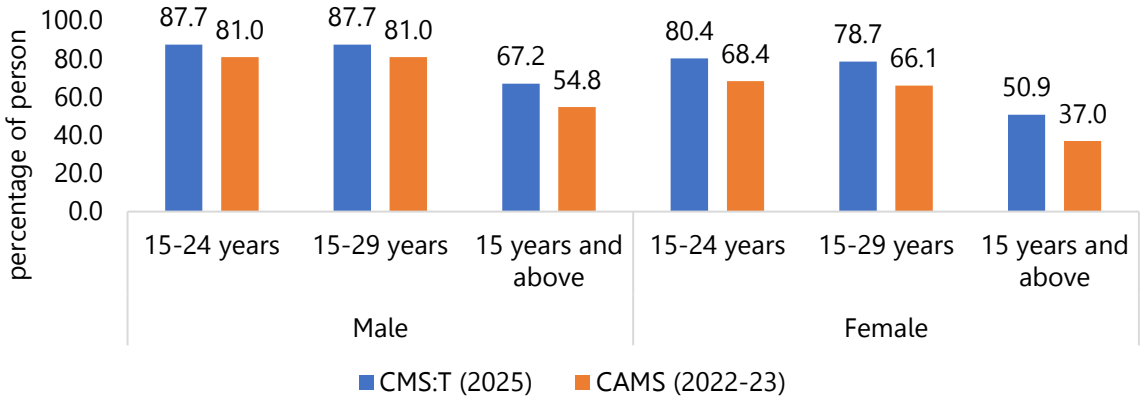

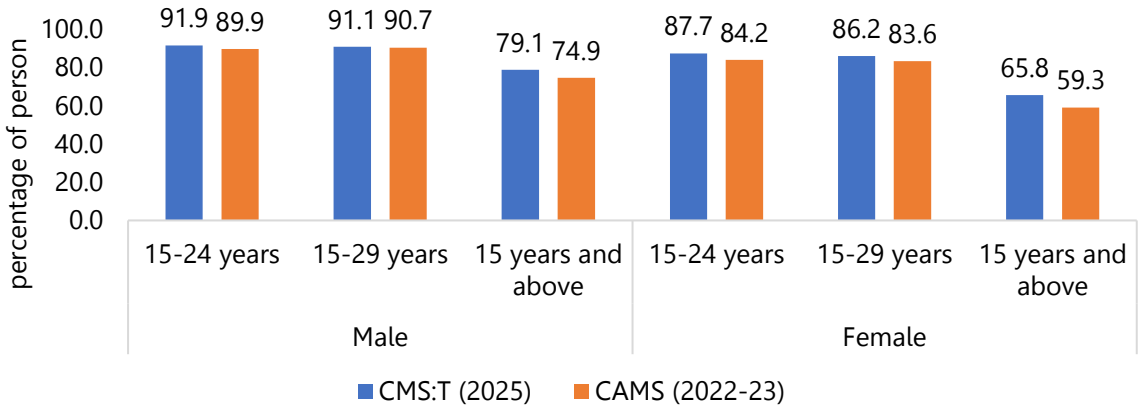

Fig 4.3: Comparison of the percentage of persons reported execution of the skill of 'sent messages (e.g., e-mail, messaging service, SMS) with attached files (e.g., documents, pictures, video)' in urban areas: CMS-T vs. CAMS

2.2.2 Use of copy and paste tools

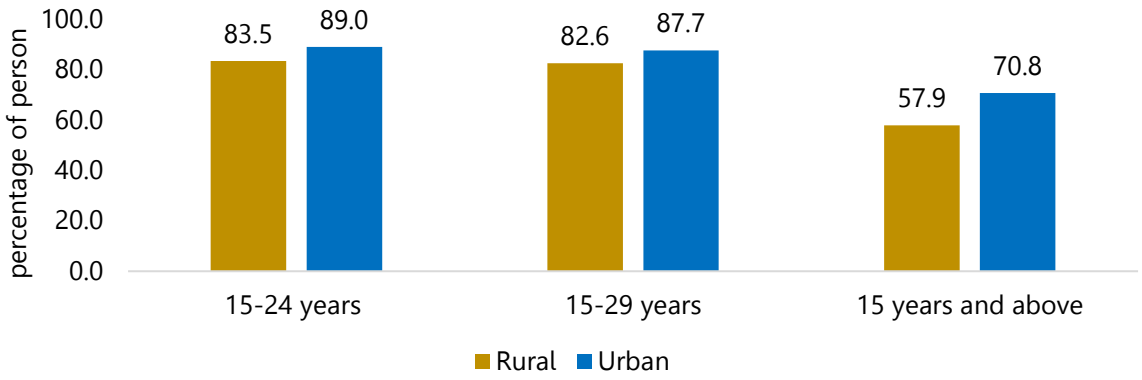

Statement 7 shows the percentages of persons who reported execution of the skill of 'copy and paste tools to duplicate or move data, information, documents, etc.', using mobile or computer like devices, at least once, during the last three months preceding the date of survey at the all-India level for different age groups. Figure 5.1 presents sector-wise estimates of the indicator. The corresponding State/UT level estimates are given at Table 7 in Appendix A.

Statement 7: Percentage of persons reported execution of the skill of 'copy and paste tools to duplicate or move data, information, documents, etc.', using mobile or computer-like devices, during the last three months preceding the date of survey

all-India

Age group (years)	Male	Female	Parson
15-24	88.7	81.6	85.3
15-29	88.1	80.1	84.3
15+	70.0	54.4	62.3

Fig 5.1: Percentage of persons reported execution of the skill of 'copy and paste tools to duplicate or move data, information, documents, etc.'

Figures 5.2 and 5.3 present gender and sector-wise estimates of the percentage of persons who executed the skill of 'copy and paste tools to duplicate or move data, information, documents, etc.', at least once, during the last three months preceding the date of the survey at the all-India level across different age groups. The figures also present a comparison of these estimates with those reported in CAMS 2022–23.

Fig 5.2: Comparision of percentage of persons reported execution of the skill of 'copy and paste tools to duplicate or move data, information, documents, etc.' in rural areas: CMS-T vs. CAMS

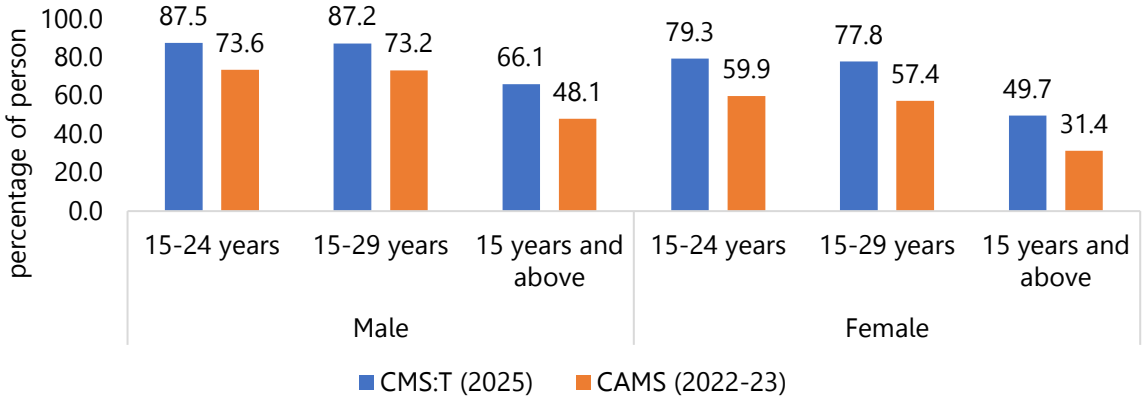

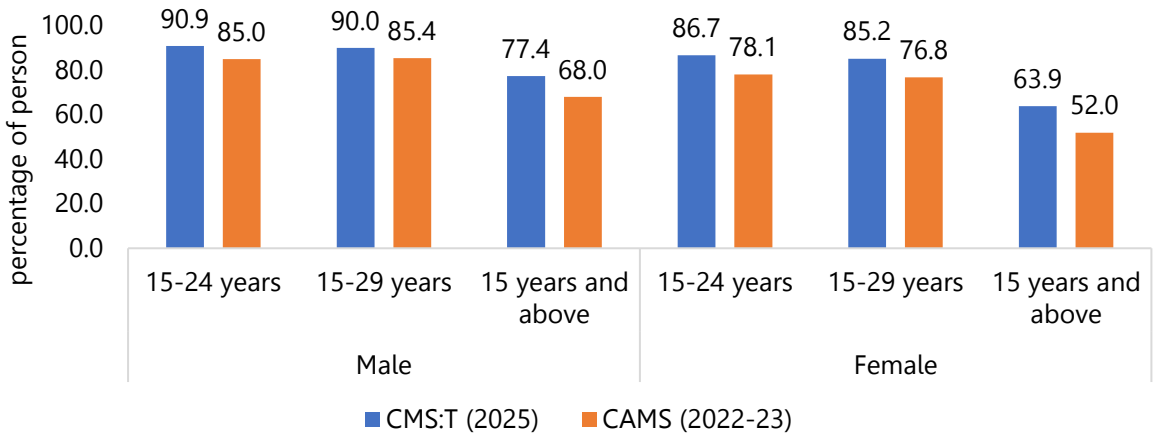

Fig 5.3: Comparision of percentage of persons reported execution of the skill of 'copy and paste tools to duplicate or move data, information, documents, etc.' in urban areas: CMS-T vs. CAMS

2.2.3 Creation of electronic presentation

Statement 8 shows the percentages of persons who reported execution of the skill of 'creating electronic presentation with presentation software', using mobile or computer-like devices, at least once, during the last three months preceding the date of survey at the all-India level for different age groups. Figure 6.1 presents sector-wise estimates, while Figures 6.2 and 6.3 provide gender and sector-wise estimates of the indicator. The corresponding State/UT level estimates are given at Table 8 in Appendix A.

Statement 8: Percentage of persons reported execution of the skill of 'creating electronic presentation with presentation software', using mobile or computer-like devices, during the last three months preceding the date of survey

all-India

Age group (years)	Male	Female	Parson
15-24	34.7	30.3	32.6
15-29	34.8	29.4	32.2
15+	27.5	20.8	24.2

Fig 6.1: Percentage of persons reported execution of the skill of 'creating electronic presentation with presentation software'

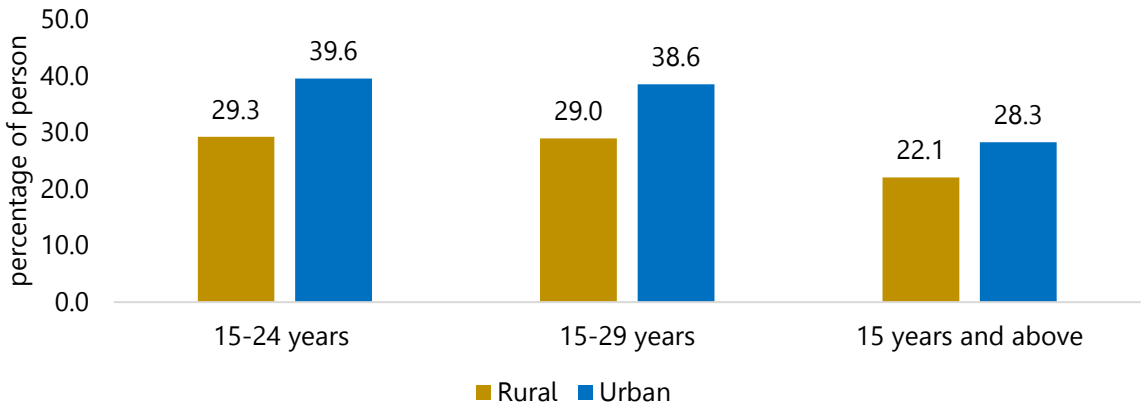

Fig. 6.2: Percentage of persons reported execution of the skill of 'creating electronic presentation with presentation software' in rural areas

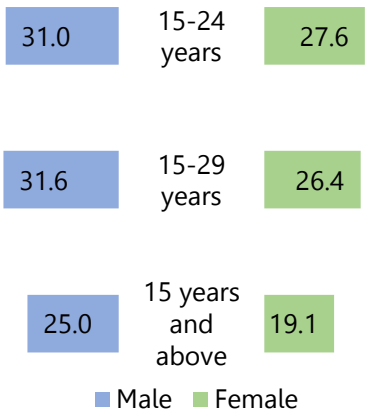

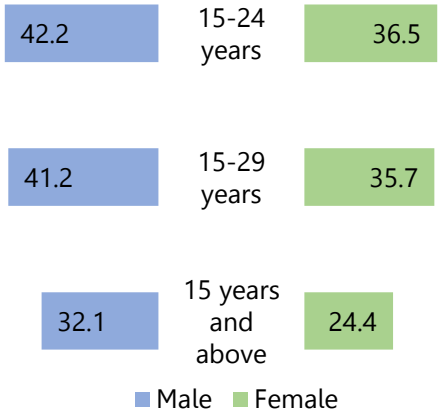

Fig. 6.3: Percentage of persons reported execution of the skill of 'creating electronic presentation with presentation software' in urban areas

2.2.4 Ability to create electronic document

Statement 9 shows the percentages of persons who reported ability to 'create electronic documents with word processing software' at the all-India level for different age groups. Figure 7.1 presents sector-wise estimates, while Figures 7.2 and 7.3 provide gender-sector-wise estimates of the indicator. The corresponding State/UT level estimates are given at Table 9 in Appendix A.

Statement 9: Percentage of persons reported ability to 'create electronic documents with word processing software'

all-India

Age group (years)	Male	Female	Parson
15-24	26.1	21.2	23.8
15-29	26.1	19.5	22.9
15+	16.2	10.0	13.1

Fig. 7.1: Percentage of persons reported ability to 'create electronic documents with word processing software'

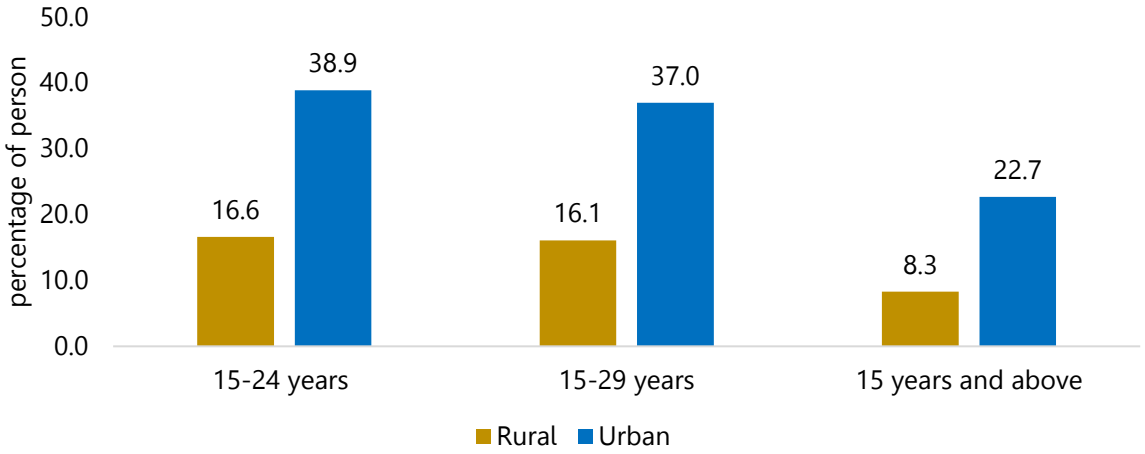

Fig. 7.2: Percentage of persons reported ability to 'create electronic documents with word processing software' in rural areas

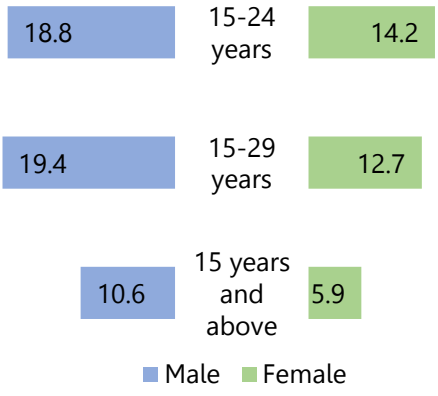

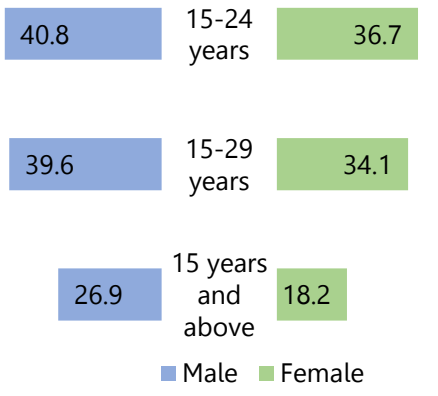

Fig. 7.3: Percentage of persons reported ability to 'create electronic documents with word processing software' in urban areas

2.2.5 Ability to report cybercrime

Statement 10 shows the percentages of persons who reported the ability to 'complain about cybercrime/ report cyber fraud in the cybercrime reporting portal' at the all-India level for different age groups. Figure 8.1 presents sector-wise estimates, while Figures 8.2 and 8.3 provide gender and sector-wise estimates of the indicator. The corresponding State/UT level estimates are given at Table 10 in Appendix A.

Statement 10: Percentage of persons reported ability to 'complain about cybercrime/ report cyber fraud in the cybercrime reporting portal'

all-India

Age group (years)	Male	Female	Parson
15-24	30.3	21.9	26.3
15-29	31.7	21.7	26.9
15+	22.7	12.7	17.7

Fig. 8.1: Percentage of persons reported ability to 'complain about cybercrime/ report cyber fraud in the cybercrime reporting portal'

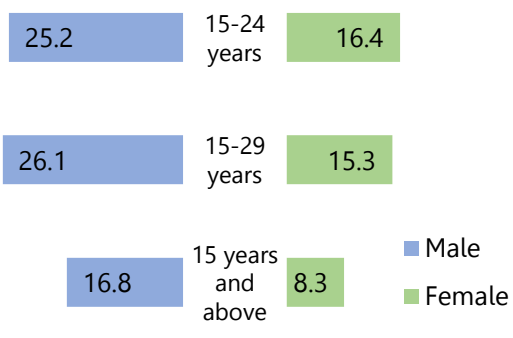

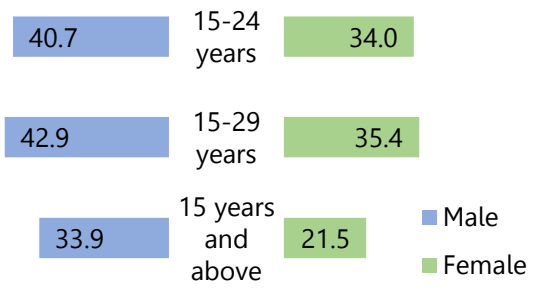

Fig. 8.2: Percentage of persons reported ability to 'complain about cybercrime/ report cyber fraud in the cybercrime reporting portal' in urban areas

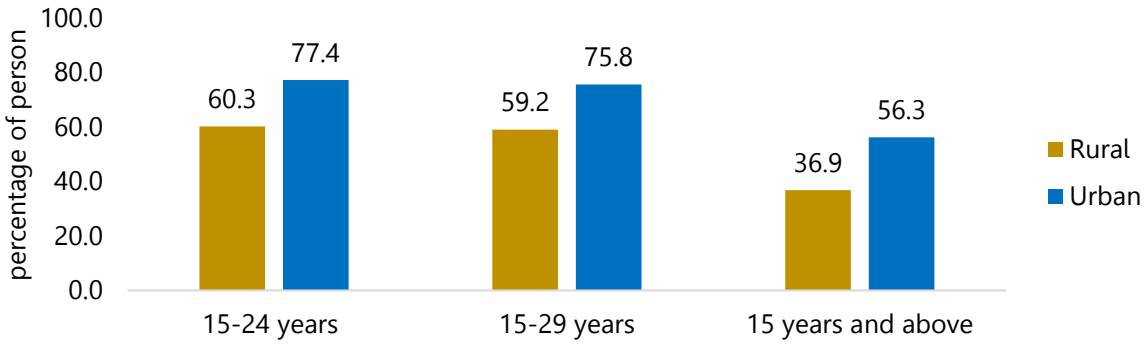

2.2.6 Ability to send or receive email

Statement 11 shows the percentages of persons who reported the ability to 'send or receive email', at the all-India level for different age groups. Figure 9.1 presents sector-wise estimates of the indicator. The corresponding State/UT level estimates are given at Table 11 in Appendix A.

Statement 11: Percentage of persons reported ability to 'send or receive email' all-India

Age group (years)	Male	Female	Parson
15-24	70.8	60.3	65.8
15-29	70.6	58.3	64.7
15+	50.9	35.9	43.5

Fig. 9.1: Percentage of persons reported ability to 'send or receive email'

Figures 9.2 and 9.3 present gender and sector-wise estimates of the percentage of persons who reported the ability 'send or receive email', at the all-India level across different age groups. The figures also present a comparison of these estimates with those reported in CAMS 2022–23.

Fig. 9.2: Comparision of percentage of persons reported ability to 'send or receive email' in rural areas: CMS:T vs. CAMS

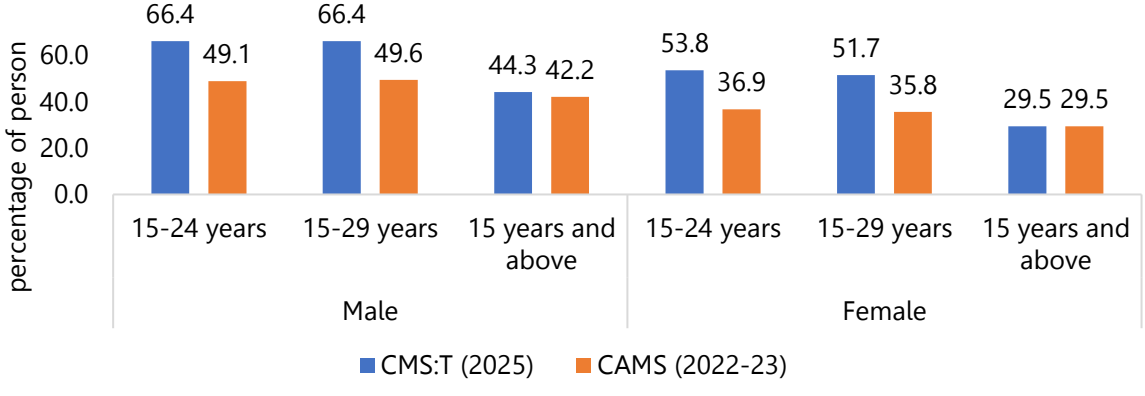

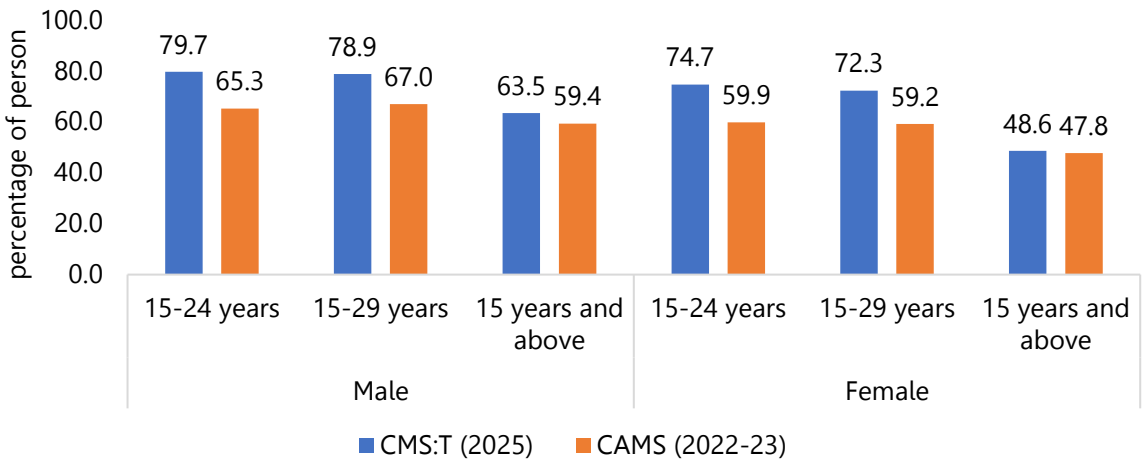

Fig. 9.2: Comparision of percentage of persons reported ability to 'send or receive email' in urban areas: CMS:T vs. CAMS

2.2.7 Ability to perform online banking

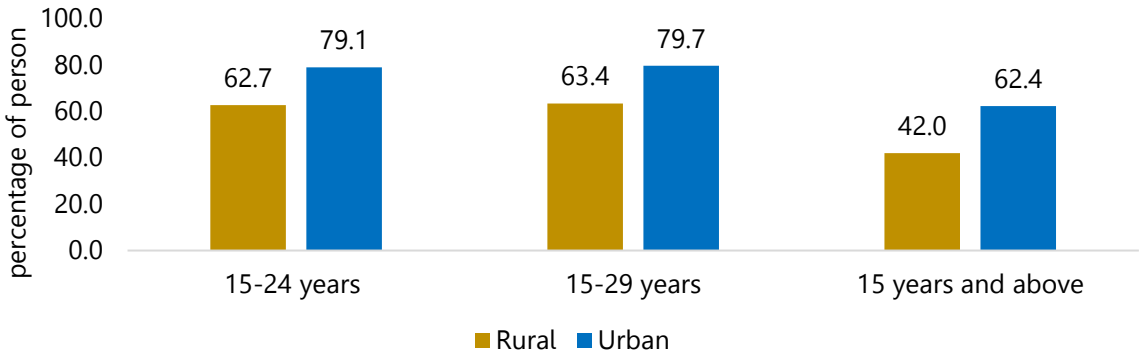

The survey collected information on the ability of the individuals, in the age group '15 years and above', to perform online banking transactions via devices like computer or mobile. Statement 12 shows the percentages of persons who reported the ability to perform online banking transactions at the all-India level for different age groups. Figure 10.1 presents sector-wise estimates of the indicator. The corresponding State/UT level estimates are given at Table 12 in Appendix A.

Statement 12: Percentage of persons reported ability to 'perform online banking transaction'

all-India

Age group (years)	Male	Female	Parson
15-24	77.1	58.0	68.0
15-29	79.3	57.5	68.7
15+	60.5	37.0	48.9

Fig. 10.1: Percentage of persons reported ability to 'perform online banking transaction'

Figures 10.2 and 10.3 present gender and sector-wise estimates of the percentage of persons who reported the ability to 'perform online banking transactions', at the all-India level across different age groups. The figures also present a comparison of these estimates with those reported in CAMS 2022–23.

Fig. 10.2: Comparision of percentage of persons reported ability to 'perform online banking transaction' in rural areas: CMS-T vs. CAMS

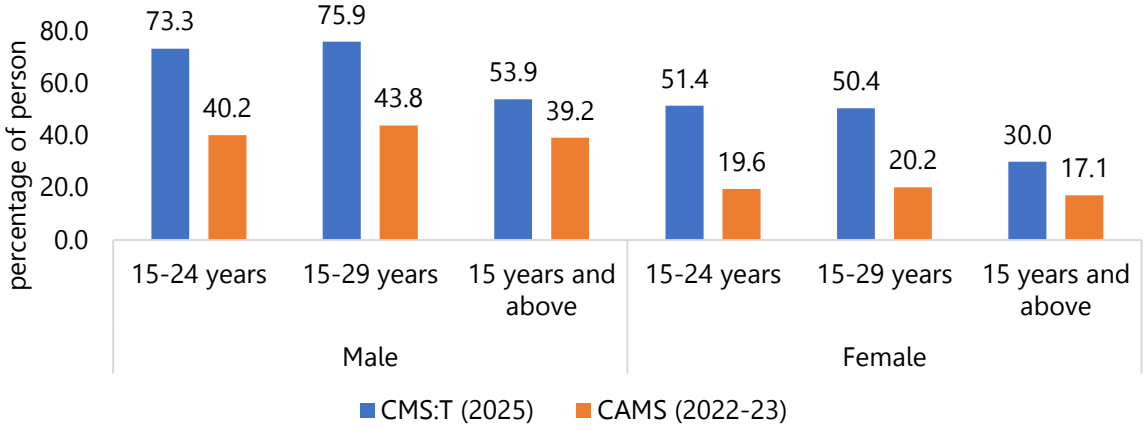

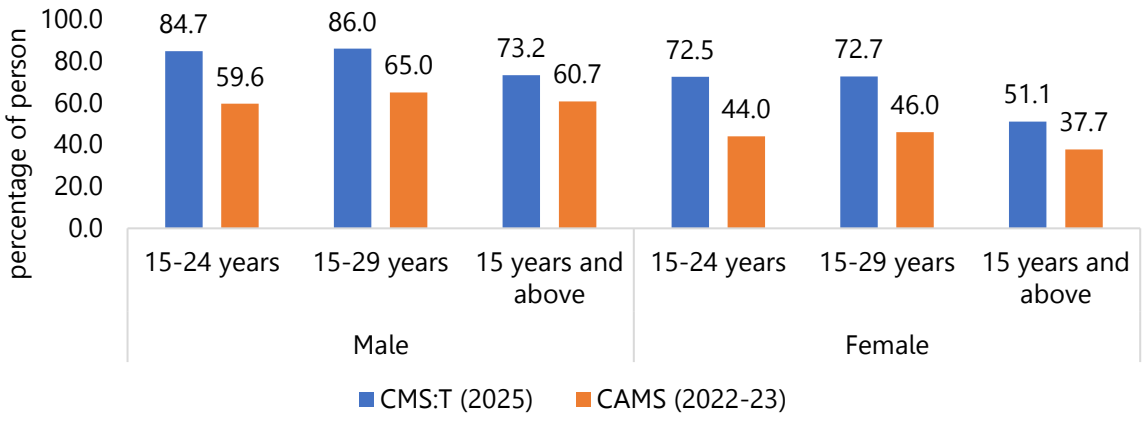

Fig. 10.3: Comparision of percentage of persons reported ability to 'perform online banking transaction' in urban areas: CMS-T vs. CAMS

Statement 12.1 provides the percentage of persons who has the ability to perform online banking through UPI and through net banking or other means (except UPI) among the persons who reported the ability to 'perform online banking transaction'. The corresponding State/UT level estimates are given at Table 12.1 in Appendix A.

Statement 12.1: Percentage of persons able to perform online banking via UPI and other means among those who reported ability to perform online banking transaction

all-India

Age group	UPI only			Net banking or other means (except UPI) only			Both UPI and net banking etc.		
	Rural	Urban	All	Rural	Urban	All	Rural	Urban	All
15-24	86.7	74.4	82.1	0.4	0.6	0.5	12.9	25.1	17.4
15-29	85.8	72.3	80.7	0.4	0.7	0.5	13.8	27.0	18.8
15+	86.7	74.4	81.4	0.4	0.7	0.6	12.8	24.9	18.0

2.3 Household access to telephone & internet and others

In this survey, information was also collected at the household level to assess internet access in household premises. Additionally, the availability of communication devices, such as landline and mobile phone, was recorded/ derived. The following sub-sections present estimates of relevant indicators at the household level.

2.3.1 Possession of mobile and landline

Statement 13 presents the percentage of households possessing different communication devices such as mobile phone (including and excluding smartphone), landline telephone at the all-India level, as on date of survey. The corresponding State/UT level estimates are given at Table 13 in Appendix A.

Statement 13: Percentage of households possessing landline and mobile phone				
				all-India
Item description		Rural	Urban	All
Percentage of households possessing landline		1.3	2.8	1.9
Mobile phone	Percentage of households possessing smart phone only	53.0	70.0	59.2
	Percentage of households possessing mobile phone other than smart phone only	12.3	5.3	9.7
	Percentage of households possessing both smart phone and mobile phone other than smart phone	29.1	21.3	26.3

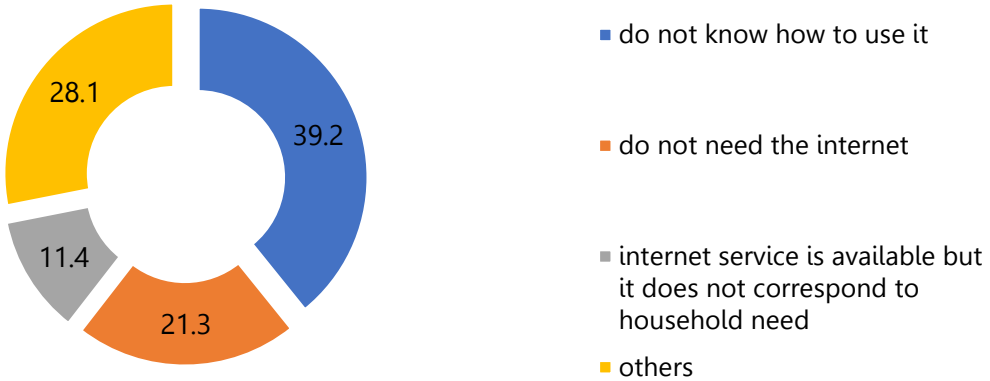

2.3.2 Internet facility

Statement 14 provides the percentage of households having access to internet facility and connection through optical fiber within the household premises, as on date of survey, at all-India level. Further, information was collected on type of internet service availed by the households within the household premises. The information on the type of internet service availed was collected under two broad categories viz., (i) fixed/ wifi network and (ii) mobile network (via handset or USB modem etc.). The estimates for each type of internet service availed by the households within household premises, along with the estimates of households availing both types of internet service, are presented in Statement 14. The corresponding State/UT level estimates are given at Table 13 and Table 14 in Appendix A.

Statement 14: Percentage of households having internet facility and type of internet service availed to access internet within household premises				
				all-India
Item description		Rural	Urban	All
Percentage of household having internet facility within household premises		83.3	91.6	86.3
Percentage of household having internet connection through optical fiber cable		3.2	14.0	7.1
Percentage of households by type of internet service availed within household premises	fixed/ WiFi network	9.1	24.0	14.9
	mobile network	98.8	98.9	98.8
	both fixed/ WiFi and mobile network	8.8	23.5	14.5

Statement 14 shows that at the all-India level, 13.7 percent of households did not have the internet facility within household premises, as on date of survey. The major reason for not having internet connection within household premises were collected for the categories viz., (i) internet service is not available in the area, (ii) internet service is available in the area but it does not meet household needs, (iii) do not know how to use it, (iv) do not know what internet is, (v) do not need the Internet, (vi) cultural reasons such as harmful content, (vii) cost of equipment is too high, (viii) cost of the service is too high, (ix) lack of local content, (x) privacy or security concerns, (xi) no electricity, (xii) have internet access elsewhere and (xiii) others. Figure 11.1 provides the percentage distribution of households by major reasons for not having access to internet facility within the household premises, as on date of survey, at all-India level. In Figure 11.1, among the reasons indicated, 'others' include all remaining reasons that are not individually represented. The corresponding State/UT level estimates are given at Table 14.1 in Appendix A.

Fig. 11.1: Percentage distribution of households by major reasons for not having access to internet facility within the household premises

2.3.3 Online purchase of goods

Figure 12.1 provides the percentage of households that made online purchases of goods during the last 30 days preceding the date of survey, at all-India level. Further, Figure 12.2 provides the distribution of households by the type of goods purchased online — food items only, non-food items only, or both. It is important to note that the survey captured information on the online purchase of goods only, excluding

services. The corresponding State/UT level estimates are given at Table 15 in Appendix A.

Fig. 12.1: Percentage of households made online purchase of goods during the last 30 days preceding the date of survey

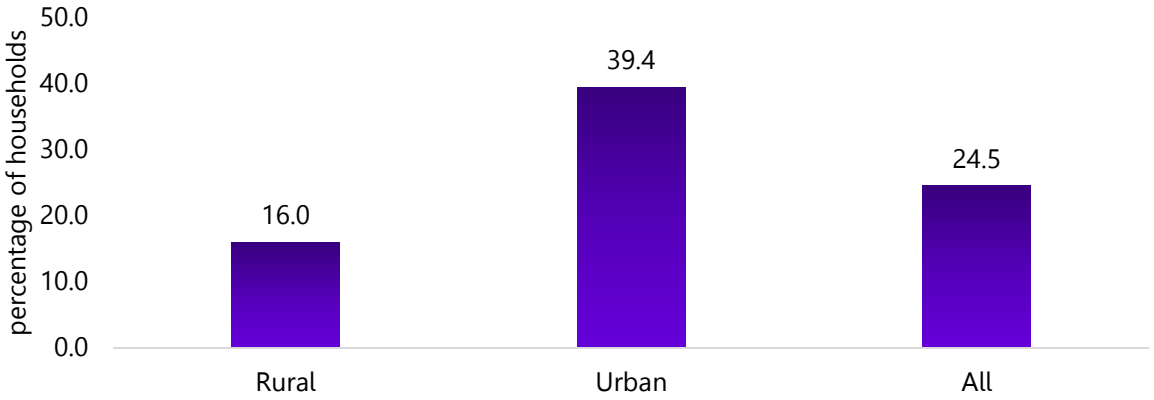

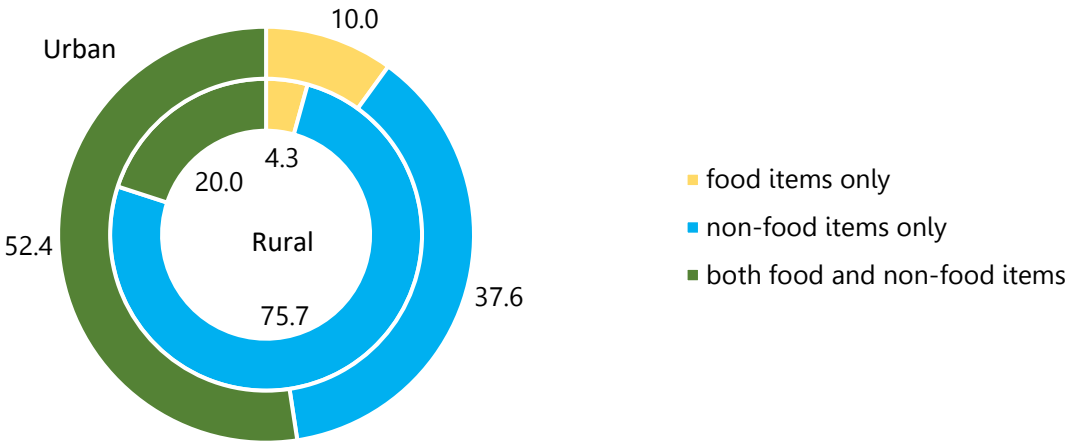

Fig. 12.2: Distribution of households by the type of goods purchased online

4 Appendix B: Concepts and Definitions

The following paragraphs elucidate the key concepts and definitions adopted in the data collection process for this survey and pertinent to this report. It may be noted that information on the execution or ability to perform any activity was based solely on the respondent's self-reporting. No tests or assessments of the respondent's skills or abilities were conducted during data collection.

1. Ownership of mobile:

The followings were considered while determining ownership of a mobile phone:

- ✓ An individual owns a mobile cellular phone if he/she has a mobile cellular phone device with at least one active SIM card for personal use.
- ✓ Mobile cellular phones supplied by employers that can be used for personal reasons (to make personal calls, access the Internet, etc.) are also included.
- ✓ Individuals who have a mobile phone for personal use that is not registered under his/her name are also included.
- ✓ Individuals who have only active SIM card(s) and not a mobile phone device are excluded.
- ✓ An active SIM card is a SIM card that has been used in the last three months.
- ✓ If a mobile phone is shared by multiple members of a household, then the ownership of the device will be determined by majority time use criteria. Joint ownership has not been considered for this survey.

2. Smartphone:

Smartphone refers to a mobile handset with a touch screen display, which has smart capabilities, including Internet-based services, and performs many of the functions of a computer, including having an operating system capable of downloading and running applications, as well as those created by third-party developers.

3. Mobile phone (other than smartphone):

It refers to a portable telephone that has a small screen and a keyboard (with one number and several letters per button). It may or may not allow browsing websites or using social media applications such as Facebook, YouTube, etc.

4. Computer:

A **desktop computer** usually remains fixed in one place; normally, the user is placed in front of it, behind the keyboard.

A **laptop (portable computer)** is a computer that is small enough to carry and usually enables the same tasks as a desktop computer; it includes notebooks and netbooks but does not include tablets and similar handheld computers.

A **Tablet (or similar handheld computer)** is a computer that is integrated into a flat touch screen, operated by touching the screen rather than (or as well as) using a physical keyboard.

A **Palmtop PC** is an approximately pocket calculator-sized, battery-powered computer compatible with the IBM Personal Computer in a horizontal clamshell design with integrated keyboard and display. It can be used like a sub-notebook, but is light enough to be comfortably used handheld as well.

Notebook computer is a small, portable personal computer (PC) with a screen and an alphanumeric keyboard. Notebook typically has a 'clamshell' form factor, typically

having the screen mounted on the inside of the upper lid of the clamshell and the keyboard on the inside of the lower lid, although 2-in-1 PCs with a detachable keyboard are often marketed as laptops or as having a "laptop mode."

5. Online purchase of goods:

Online purchase of goods refers to purchases made through e-commerce websites or mobile applications. Purchases based on products displayed on social media platforms (websites or apps) were excluded from the scope of this survey. The emphasis has been placed on the mode of ordering rather than the mode of payment or final consumption. Accordingly, if an item was ordered online via a website or app, it was classified as an online purchase regardless of whether the payment was made online or in cash. However, orders placed via phone calls or text messages were not treated as online purchases, even if payment was made online or through a credit/debit card.

6. Internet:

The Internet is a worldwide public computer network. It provides access to a number of communication services, including the World Wide Web, and carries e-mail, news, entertainment and data files, irrespective of the device used (not assumed to be only a computer; it may also be a mobile telephone, tablet, PDA, games machine, digital TV, and so on).

7. Portable device and network:

Portable or 'on-the-go' devices and networks are specifically designed for convenient use while in motion or away from fixed locations. Examples of portable devices include mobile phones, tablets, laptops, notebooks, portable gaming consoles, and smartwatches, all of which enable users to stay connected on the move. Whereas, a portable network includes mobile data, wifi, etc.

8. Type of Network:

Mobile data network is a type of wireless network that enables devices like smartphones, tablets, and laptops to access the internet without relying on Wi-Fi or fixed connections (like broadband or fiber). Instead, mobile data networks use radio signals transmitted by cellular towers and antennas to provide internet access. These networks are operated by mobile carriers and span large areas, making them ideal for providing internet connectivity on the go. One needs an active SIM card with internet facility to access the mobile data network.

Wireless network (like Wi-Fi) is a technology that allows devices like smartphones, laptops, tablets, etc. to connect to the internet wirelessly through a local area network (LAN). Wi-Fi is commonly used in homes, offices, cafes, and public spaces to provide internet access within a limited range, usually powered by a Wi-Fi router connected to a broadband or fiber internet service

Fixed network is also known as a wired network. A wired network uses physical cables to connect devices, such as a computer, to the internet or another network.

USB modem is a small portable USB device, usually the size of a USB flash drive, that connects to a computer or compatible device via a USB port to provide internet access.

9. Able to use copy and paste

This activity refers to the individual's ability to perform copy and paste operations on digital devices such as mobile phones, tablets, or desktop/laptop computers. It includes actions such as:

Moving or copying files from one folder to another within the same device. Transferring files between devices (e.g., from mobile to desktop or vice versa) using wireless methods (such as Bluetooth, Wi-Fi Direct, or cloud-based services) or physical means (such as a USB cable or external storage device). Copying and pasting text, such as selecting and duplicating text content from one location to another within documents, emails, or browser fields. Forwarding messages or media (e.g., text,

images, or videos) using messaging applications like WhatsApp, Telegram, or similar platforms.

10. Send messages with attached files

This activity refers to the use of a messaging platform or application, such as WhatsApp or similar services, to send messages that include attachments. The attachments may consist of video clips, audio clips, photographs, images, or other digital files, which are uploaded to the platform and sent to one or more recipients.

11. Ability to complain about cybercrime

Ability to complain about cybercrime includes awareness of cybercrime reporting platform (cybercrime.gov.in), knowledge of how to file complaints (online form, helpline, social media platforms, etc.), understanding types of cybercrime that can be reported (phishing, fraud, identity theft, etc.).

12. Fixed telephone line

It is a landline connection that transmits voice, data, and other forms of communication through a fixed infrastructure, typically copper or fiber-optic cables, rather than through a wireless network. These lines are installed at a specific location, such as a home or office, and are connected to the public switched telephone network (PSTN), allowing for reliable, stable voice communication and, in many cases, internet connectivity through DSL or fiber technology.

13. Optical fiber cable

Commonly known as a fiber-optic internet connection, uses thin strands of glass or plastic fibers to transmit data as light signals. This method allows for extremely high-speed data transfer with minimal interference, offering speeds that can reach up to gigabits per second (Gbps). Fiber-optic internet provides a highly reliable, low-latency connection, making it ideal for data-intensive applications like HD video streaming, online gaming, remote work, and cloud-based services.

5 Appendix C: Survey methodology and Estimation procedure

1. Introduction

The National Sample Survey (NSS) undertook Comprehensive Modular Survey - Telecom (CMS-T) as a part of its 80th round during the period January, 2025 to March, 2025.

1.1 Geographical coverage: The survey will cover the whole of the Indian Union except the villages in Andaman and Nicobar Islands which remain extremely difficult to access throughout the year.

1.2 Schedule of enquiry: The following Schedules of enquiry were canvassed for the survey on CMS-T.

Schedule 0.0	List of Households
Schedule CMS-T	Comprehensive Modular Survey-Telecom

1.3 Participation of States: The is no State participation in the CMS-T.

2. Sample Design, Sampling Frame, Stratification Criteria

2.1 Formation of sub-units (SUs):

2.1.1.1 Rural areas: The projected population of a village with Census 2011 population 1000 or more was determined by applying suitable growth rates to the census 2011 population. Thereafter, it was notionally divided into a number of sub-units (SU) of more or less equal population. The number of SUs to be formed in a village was determined *apriori*. The following criteria were adopted for deciding the number of SUs to be formed:

projected population of the village	no. of SUs to be formed
less than 1200	1
1200 to 2399	2
2400 to 3599	3
3600 to 4799	4
.....and so on	....

2.1.1.2 Special case:

For rural areas of (i) Himachal Pradesh, (ii) Sikkim, (iii) Andaman & Nicobar Islands, (iv) Uttarakhand (except the districts Dehradun, Nainital, Hardwar and Udham Singh Nagar), (v) Punch, Rajouri, Udhampur, Reasi, Doda, Kishtwar, Ramban of Jammu and Kashmir (vi) Leh and Kargil districts of Ladakh region and (vii) Idukki district of Kerala, numbers of SUs to be formed in a village were determined in such a way that each SU contains 600 or less projected population. Further, SUs was not formed in the villages in the above mentioned districts/States with population less than 500 as per Census 2011. In the remaining villages, the criteria for deciding the number of SUs to be formed were as below:

projected population of the village	no. of SUs to be formed
less than 600	1
600 to 1199	2
1200 to 1799	3
1800 to 2399	4
2400 to 2999	5
.....and so on	....

For rural parts of Kerala, similar procedure as mentioned in para 2.1.1.1 above was adopted with the modification that the SUs were formed within Panchayat Wards instead of villages.

2.1.1.3 Urban areas: SUs were formed in urban sector also. The procedure is similar to that adopted in rural areas except that the criteria for determining number of SUs to be formed is on the basis of number of households in the UFS frame as UFS frame does not have population. Each UFS block with number of households more than or equal to 250 was divided into a number of SUs. The following criteria was adopted for deciding the number of SUs to be formed in the UFS blocks of the frame and the number of SUs to be formed was decided before selection of the samples:

number of households of the UFS block	no. of SUs to be formed
less than 250	1
250 to 499	2
500 to 749	3
750 to 999	4
1000 to 1249	5
.....and so on	....

2.2 Sample design: A stratified multi-stage design was adopted for the 80th round survey. *The first stage units (FSU) were villages/UFS blocks/sub-units (SUs) as per the situation.* The ultimate stage units (USU) were households in both sectors.

2.3 Sampling Frame for First Stage Units (FSUs):

2.3.1 There was no SU formation in uninhabited villages and villages (Panchayat wards for Kerala) with population less than 1000 as per Census 2011 (less than 500 as per Census 2011 for the areas mentioned in para 2.1.1.2) and entire village was considered as one FSU. All such villages (Panchayat wards for Kerala) were regarded as the First Stage Units (FSUs).

2.3.2 In the remaining villages, notional sub-units (SUs) were formed using the procedure as described above in para 2.1. Such SUs were considered as the First Stage Units (FSUs).

2.3.3 For the UFS blocks with less than 250 households, the entire UFS block was considered as one FSU. In the remaining UFS blocks, the SUs were considered as the First Stage Units (FSUs).

2.3.4 The list of FSUs as described above constitutes the sampling frame for respective sectors, i.e., rural and urban areas.

2.4 Stratification of FSUs:

2.4.1 Rural areas:

A Special Rural stratum, at all-India level, was formed comprising all the uninhabited villages as per census 2011 belonging to all States/UT.

For the remaining villages which are inhabited as per census 2011, districts were the basic geographical unit for stratum formation. Within each district, two Stratum were formed:

(a) The villages (i) within a distance of 5 Kms from the district headquarter or (ii) within a distance of 5 Kms from a city/town with more than 5 lakh population, form a stratum (stratum 1).

(b) Rest of the villages constitute another stratum (stratum 2) of the particular district.

2.4.2 Urban Sector:

Two or more strata were formed in urban areas of each district:

(i) Each million plus city as per census 2011 constitutes separate stratum.

(ii) Rest of the urban areas of the district form another stratum.

2.5 Sub-stratification of FSUs:

2.5.1 Rural sector: Three groups of villages were formed within each stratum, except special rural stratum at all-India level as mentioned in para 2.1.1.2.

Group 1: all villages (Panchayat wards for Kerala) with Census 2011 population less than 250

Group 2: all villages (Panchayat wards for Kerala) with Census 2011 population more than or equal to 250 but less than 500

Group 3: remaining villages

The sample size for a rural stratum is allocated among 3 groups in proportion to population. Let r_1, r_2 and r_3 be the allocations to Group 1, Group 2 and Group 3, respectively. The villages within each group are first arranged in ascending order of number of populations. For all the three groups within each stratum, '$r_1/8' > 1$, '$r_2/8' > 1$ and '$r_3/8' > 1$, will imply formation of 2 or more sub-strata in each group. Sub-strata will be demarcated in Group 1, Group 2 and Group 3 respectively in such a way that each sub-stratum will comprise a group of villages (all SUs of a village considered together) of the arranged frame and have more or less equal population.

If the number of FSUs in a particular Group is very small or sufficient number of samples is not allocated, no sub-stratum is formed in that Group.

2.5.2 Urban sector: Let 'u' be the sample size allocated for an urban stratum. For all strata, if 'u/8' >1, implying formation of 2 or more sub-strata, all the UFS blocks within the stratum were first arranged in ascending order of total number of households in

the UFS blocks as per the urban frame. Then sub-strata were demarcated in such a way that each sub-stratum comprised a group of UFS blocks (all SUs of a block considered together) having a more or less equal number of households. If the number of blocks in a particular stratum was very small, no sub-stratum was formed in that stratum.

2.3.6 Total sample size (FSUs): 4409 FSUs were allotted at the all-India level for the CMS-T survey. State/UT-wise allocation of sample FSUs is given in Table 1.

2.3.6.1 Allocation of total sample to States and UTs

The total number of sample FSUs allocated to the States and UTs in proportion to the projected population figures as on 1st October 2024 as available from the report, 'Population Projections for India and States 2011-2036' of the Technical Group on Population Projections, Ministry of Health and Family Welfare, Government of India, subject to a minimum sample allocation to each State/UT. A minimum of 4 FSUs (2 each for the rural and urban sectors) is allocated to each State/ UT.

2.3.6.2 Allocation of State / UT level sample to rural and urban sector

The State/ UT level samples are allocated between two sectors in proportion to the projected population figures as on 1st October 2024 as available from the report mentioned earlier.

Within each sector of a State/ UT, the respective sample size was allocated to the different strata in proportion to the population as per Census 2011. The stratum level allocation was adjusted to multiples of 2 for the quarter, with a minimum allocation of 2 FSUs. For the special stratum (stratum code '999') formed in rural areas, 6 FSUs were allocated.

Quarterly allocation of FSUs for each sub-stratum was 2 in both rural and urban sectors.

2.3.7 Selection of FSUs within a stratum/sub-stratum:

From all the sub-strata in both rural and urban sectors within each stratum, the required number of FSUs was selected by Simple Random Sampling without Replacement (SRSWOR) scheme.

2.3.8 Formation of Sub-divisions in the selected SU: It has been experienced in the previous NSS surveys that there happen to be some extreme cases where the approximate ascertained present population in the selected SU was very high and listing becomes very difficult. To take care of such extreme situations, the SU was sub-divided into a number of smaller units (sub-divisions) each having more or less equal population content and one of them is randomly selected. Listing and selection of households were done in the selected sub-division unit only. The procedure for the formation of sub-divisions is the same as that of the formation of SUs within village/blocks.

The criteria for determining the number of Sub-divisions (D_1) to be formed in the selected rural/urban SUs is as follows:

Approx. population of the SU	no. of Sub-divisions (D_1)
less than 1500	1
1500 to 2399	2
2400 to 3599	3
3600 to 4799	4
.....and so on	....

2.3.9 Special case:

2.3.9.1 For rural areas of (i) Himachal Pradesh, (ii) Sikkim, (iii) Andaman & Nicobar Islands, (iv) Uttarakhand (except four districts Dehradun, Nainital, Hardwar and Udham Singh Nagar), (v) Punch, Rajouri, Udhampur, Reasi, Doda, Kishtwar, Ramban of Jammu (vi) Leh and Kargil districts of Ladakh region and (vii) Idukki district of Kerala, the criterion for determining the number of sub-divisions (D_1) to be formed in rural SUs is as follows:

Approx. population of the SU	no. of Sub-divisions to be
less than 750	1
750 to 1199	2
1200 to 1799	3
1800 to 2399	4

2400 to 2999	5
.....and so on	....

2.3.10 Listing of households: All the households of the sample FSU were included in the list of households. Temporarily locked households are also included after ascertaining the temporariness of the absence of the households through local enquiry.

2.3.11 Selection of households: 8 sample households were selected by simple random sampling without replacement (SRSWOR).

3. Estimation Procedure

3.1. Notations:

s	subscript for s^{th} stratum
t	subscript for t^{th} sub-stratum
i	subscript for i^{th} FSU [SU/ Village / panchayat ward/ UFS block]
k	subscript for k^{th} sample household within an FSU
D_1	total number of sub-divisions formed in the sample FSU. D_1=1, if no Sub-division is formed in the SU)
N	total number of FSUs in any rural/urban sub-stratum
n	number of sample FSUs surveyed including 'uninhabited' and 'zero cases' but excluding casualty for a particular sub-stratum
H	total number of households listed in an FSU
h	number of households surveyed in an FSU
x, y	observed value of characteristics *x*, *y* under estimation
$\hat{X}$, $\hat{Y}$	estimate of population total X, Y for the characteristics x, y

Let y_{stik} be the observed value of the characteristic y for the k-th household of the i-th FSU for the t-th sub-stratum of s-th stratum.

For ease of understanding, a few symbols have been suppressed in following paragraphs where they are obvious.

3.2. Formulae for Estimation of Aggregates for a stratum × sub-stratum:

3.2.1. Schedule 0.0 (Rural/Urban):

3.2.1.1. For estimating the number of households in a stratum × sub-stratum possessing a characteristic:

$$\hat{Y} = \frac{N}{n} \sum_{i=1}^{n} D_1 \times y_i$$

where, y_i is the total number of households possessing the characteristic y in i-th FSU.

3.2.2. Schedule CMS-T:

3.2.2.1. For a stratum × sub-stratum:

$$\hat{Y}_{st} = \frac{N}{n_{st}} \sum_{i=1}^{n} \left[D_1 * \frac{H_i}{h_i} * \sum_{k=1}^{h_i} y_{ik} \right]$$

where n_{st} is the number of sample FSUs surveyed including zero cases and uninhabited in a particular stratum × sub stratum.

3.3. Overall Estimate of Aggregates for a stratum:

Overall estimate for a stratum ($\hat{Y}_s$) will be obtained as

$$\hat{Y}_s = \sum_{t} \hat{Y}_{st}$$

3.4. Overall Estimate of Aggregates at all-India level:

The overall estimate $\hat{Y}$ at the State/ UT/ all-India level is obtained by summing the stratum estimates $\hat{Y}_s$ over all strata belonging to the State/ UT/ all-India.

3.5. Estimates of Ratios:

Let $\hat{Y}$ and $\hat{X}$ be the overall estimates of the aggregates Y and X for two characteristics y and x, respectively at the All-India level.

Then, the combined ratio estimates $(\hat{R})$ of the ratio $\left(R = \frac{Y}{X}\right)$ will be obtained as $\hat{R} = \frac{\hat{Y}}{\hat{X}}$.

3.6. Estimation of Errors:

3.6.1. Formula for estimated variance (for Rural / Urban):

3.6.1.1. Here, the FSUs are selected by SRSWOR independently for each quarter. Subsequently, USUs will be selected by SRSWOR. If the i[th] FSU has been selected, h_i unit is selected from this particular FSU by SRSWOR method.

(a) Formula for aggregate $\hat{Y}$ (for Rural/Urban):

$$\hat{Y}_i = H_i * \bar{y}_i * D_{1si} \qquad \text{and} \qquad \overline{y_i} = \sum_1^{h_i} y_{ik} \Big/ h_i$$

$$V\hat{a}r\left(\hat{Y}\right) = \sum_S V\hat{a}r\left(\hat{Y}_s\right) = \sum_s \sum_t V\hat{a}r\left(\hat{Y}_{st}\right)$$

$$V\hat{a}r\left(\widehat{Y_{st}}\right) = {N_{st}}^2 \left(\frac{1}{n_{st}} - \frac{1}{N_{st}}\right)\left(\frac{1}{n_{st}-1}\right)\sum_1^{n_{st}}\left(H_{sti} * D_{1sti} * \overline{y_{sti}} - \frac{1}{n_{st}}\sum_1^{n_{st}} H_{sti} * D_{1sti} * \overline{y_{sti}}\right)^2$$

$$+ \frac{N_{st}}{n_{st}}\sum_1^{n_{st}} {H_{sti}}^2 * {D_{1sti}}^2 * \left(\frac{1}{h_{sti}} - \frac{1}{H_{sti} * D_{1si}}\right){s^2}_{wi}$$

where ${s^2}_{wi} = \frac{1}{(h_{sti}-1)}\sum_{k=1}^{h_{sti}}(y_{stik} - \bar{y}_{sti})^2$

(b) Formula for ratio $\hat{R}$ (for Rural/Urban):

Note that $MSE\ (\hat{R})$ is unbiasedly estimated by $V\left(\hat{Y} - R\hat{X}\right) * \frac{1}{\hat{X}^2}$

$V\left(\hat{Y} - R\hat{X}\right) = v(\hat{u})$ where $u_{ik} = (y_{ik} - Rx_{ik})$,

$U_i = (Y_i - RX_i)$ and $U = (Y - RX) = 0$ at domain level (All-India).

$\hat{X}^2 M\hat{S}E\left(\hat{R}\right) = \hat{V}\left(\hat{U}\right)$ at $R = \hat{R}$

$$\hat{Y}_{sti} = \frac{1}{N_{st}} * \sum_k y_{stik} * n_{st} * \text{multiplier}$$

$$\hat{X}_{sti} = \frac{1}{N_{st}} * \sum_k x_{stik} * n_{st} * \text{multiplier}$$

$$M\hat{S}E\left(\hat{R}\right) = \frac{1}{\hat{X}^2}\sum_s\sum_t M\hat{S}E_{st}\left(\hat{R}\right)$$

Finally;

$$\hat{MSE}_{st}(\hat{R}) = {N_{st}}^2\left(\frac{1}{n_{st}} - \frac{1}{N_{st}}\right)\frac{1}{(n_{st}-1)}\sum_{1}^{n_{st}}(H_i D_{1si}\bar{u}_i - \frac{1}{n_{st}}\sum_{1}^{n_{st}} H_i\, D_{1si}\bar{u}_i)^2 + \frac{N_{st}}{n_{st}}\sum_{1}^{n_{st}} {H^2}_i$$

$$* {D_{1si}}^2(\frac{1}{h_i} - \frac{1}{H_i * D_{1si}}){s_{ui}}^2$$

where ${s_{ui}}^2 = \frac{1}{(h_i-1)}\sum_{k=1}^{h_i}(u_{ik} - \bar{u}_i)^2$

$\bar{u}_i = \bar{y}_i - \hat{R}\bar{x}_i$

The formulae for multipliers are as given in Section 4.

3.6.2. Estimates of Relative Standard Error (RSE):

$$\hat{RSE}\left(\hat{Y}\right) = \frac{\sqrt{\hat{Var}\,(\hat{Y})}}{\hat{Y}} \times 100$$

$$\hat{RSE}\left(\hat{R}\right) = \frac{\sqrt{\hat{MSE}\,(\hat{R})}}{\hat{R}} \times 100$$

4. Multipliers:

4.1. The formulae for multipliers at stratum/sub-stratum level for different types of schedules are given below.

Schedule	Sector	Formula for multipliers
0.0	Rural / Urban	$\frac{N_{st}}{n_{st}}$
CMS-T	Rural / Urban	$\frac{N_{st}}{n_{st}} * D_1 * \frac{H_{sti}}{h_{sti}}$

Note:

(i) For estimating any characteristic for any domain, not specifically considered in sample design, indicator variable may be used.

(ii) Multipliers have to be computed on the basis of information available in the listing Schedule 0.0, irrespective of any misclassification observed between the listing Schedule and detailed enquiry Schedule.

4.2. The sample is drawn independently for each of the quarters. Therefore, multiplier will be computed using the sample allocated for the period January – March 2025 only.

Table 1: Allocation of Sample FSUs in CMS: Telecom				
Sl No	**State/ UT**	**Rural**	**Urban**	**Total**
(1)	**(2)**	**(3)**	**(4)**	**(5)**
1	Andhra Pradesh	93	60	153
2	Arunachal Pradesh	45	40	85
3	Assam	87	71	158
4	Bihar	192	87	279
5	Chhattisgarh	68	77	145
6	Delhi	14	51	65
7	Goa	4	4	8
8	Gujarat	105	86	191
9	Haryana	50	48	98
10	Himachal Pradesh	25	20	45
11	Jharkhand	85	59	144
12	Karnataka	107	89	196
13	Kerala	46	62	108
14	Madhya Pradesh	136	129	265
15	Maharashtra	185	167	352
16	Manipur	44	37	81
17	Meghalaya	29	20	49
18	Mizoram	22	27	49
19	Nagaland	27	26	53
20	Odisha	106	61	167
21	Punjab	51	51	102
22	Rajasthan	127	113	240
23	Sikkim	20	13	33
24	Tamil Nadu	100	108	208
25	Telangana	66	75	141
26	Tripura	42	20	62
27	Uttarakhand	27	28	55
28	Uttar Pradesh	300	175	475
29	West Bengal	147	107	254
30	Andaman and Nicobar Islands	7	5	12
31	Chandigarh	0	6	6
32	Dadra and Nagar Haveli and Daman & Diu	6	6	12
33	Jammu and Kashmir	41	45	86
34	Ladakh	4	4	8
35	Lakshadweep	2	4	6
36	Puducherry	4	8	12
all-India		2414	1989	4403

Note: 6 more rural FSUs were allocated to a special stratum, at all-India level, comprising of uninhabited villages.

6 Appendix D: *Facsimile* of Schedule CMS: Telecom

GOVERNMENT OF INDIA
NATIONAL STATISTICS OFFICE
SOCIO-ECONOMIC SURVEY
EIGHTIETH ROUND
SCHEDULE CMS-T: COMPREHENSIVE MODULAR SURVEY-TELECOM
JANUARY – MARCH 2025

[Block 1] Identification of sample household

[Information on items 1 to 8 and 11 will be available from the sample list. Information on items 12 and 13 will be available from the schedule for listing (Sch 00). Items 14 and 15 are to be filled by the field officials.]

Qs. No.	Item description	Code/Entry
1.	Sector *(rural-1, urban -2)*	
2.	Type of Sample *(central -1, state -2)*	
3.	State/U.T. Name	
4.	District Name	
5.	Name of Sub-District/Tehsil/Town	
6.	Village Name:	
7.	Investigator Unit Number/Block Number:	
8.	Sample Sub-Unit (SU) Number:	
9.	Round Number	80
10.	Schedule name/Module:	CMS-T
11.	Serial Number of Sample FSU:	
12.	Sample Sub-Division Number:	
13.	Sample Household Number:	
14.	Survey Code *(original -1, substitute -2, casualty -3)*	
FOR CODES 2 or 3 in Q14, GO TO Q15. OTHERWISE, GO TO BLOCK 3.		
15.	Reason for substitution/casualty of the original household* *(informant busy -1, members away from home -2, informant non-cooperative -3, others -9)*	
**: The interviewer will fill up this item if a substituted household is canvassed or the household is a casualty*		

[Block 3] Demographic particulars, household size and general household characteristics					
Q. No.	**Item description**				
1	List the names of all household members along with other particulars				
Serial number	Name of the household member	Gender (*male-1, female-2, transgender-3*)	Age (years) [*completed number of years of age*]	**For entry in Col.4 ≥ 3**	
				Whether able to use mobile telephone as on date of survey? (yes-1, no-2)	Whether able to use any of: desktop computer/ laptop/tablet/ palmtop/ notebook etc. as on date of survey? (*yes -1,no -2*)
(1)	(2)	(3)	(4)	(5)	(6)
1.	[Head of the household]				
2.					
3.					
…					
					Code/Entry
2	Household size				
3	Household Religion (*Hinduism -1, Islam -2, Christianity -3, Sikhism -4, Jainism -5, Buddhism -6, Zoroastrianism -7, others -9*)				
4	Household Social group (*scheduled tribe(ST) -1, scheduled caste(SC) -2, other backward class (OBC)-3,others-9*)				
5	What is the usual monthly consumption expenditure of the household (Rupees in whole number)				
6.	Whether made any online purchases of goods during the last 30 days? (yes: for food item only -1, yes: for non-food item only, yes: for both 1 & 2 – 3, no -4)				
6.1	**For code 1, 2 or 3 in Q6:** Number of times online purchase of goods was made by the households during last 30 days (*report the total number of all online purchases of goods made by the household members in whole number*)				

Instruction:

- *All the members of the sample household will be listed using a continuous serial number starting with head of the household at serial no.1.*
- *Include paying guests, domestic servants, other relations and non-relations who are normally living together for six months or more or are expected to stay for six months or more and taking food from a common kitchen*
- *Include temporary stay-aways (i.e., persons whose total period of absence from the household is expected to be less than 6 months)*
- *Exclude temporary visitors and guests (expected total period of stay in the household less than 6 months*

[Block 3.1] Remarks

[Block 4] Usage of mobile, internet etc. by household members of age 3 years or more [i.e. entry (col. 4) ≥ 3] and with code 1 in either of Col. 5 or Col. 6 of Block 3									
Qs. No.	**Item description**				**Code/Entry**				
					P1	**P2**	**P3**	**P4**	**P5**
1	Srl. no. of household member (as in col. 1, bl. 3)								
2	Gender of household member (as in col. 3, bl. 3)								
2a	Age (years) of household member (as in col. 4, bl. 3)								
3	Whether possessed/ accessed any mobile telephone during last three month? (*yes: smartphone/ touch phone/ big screen phone only - 1, yes: mobile telephone excluding smartphone/ touch phone/ big screen phone only - 2, yes: both (1 & 2) - 3, no-4*)								
4	**For code 1 or 3 in Q3**	Whether used smartphone/ touch phone/ big screen phone during the last three months, at least once, for making personal calls and/ or accessing the internet? (*yes -1, no - 2*)							
5		Whether own a smartphone/ touch phone/ big screen phone as on date of survey? (*yes -1, no - 2*)							
6	**For code 2 or 3 in Q3**	Whether used mobile telephone (excluding smartphone/ touch phone/ big screen phone), at least once, during last three month for making personal calls and/or accessing the internet? (*yes -1, no - 2*)							
7		Whether own a mobile telephone (excluding smartphone/ touch phone/ big screen phone) as on date of survey? (*yes -1, no - 2*)							
8	Whether used any computer (including laptop, tablet, palmtop, notebook etc.) at least once *during last 3 months* from any location? (*yes -1, no -2*)								
9	**For code 1 in Q4 or Q6 or Q8**	Whether able to use the internet using any device for any purpose? (*yes: for entertainment (including communication) only -1, yes: for information only - 2, yes: both (1 & 2) - 3, no-4*)							
10		**For codes 1, 2 or 3 in Q9**	Whether used internet at least once *during last 3 months* from any location for any purpose? (*yes -1, no -2*)						
10.1			**For code 1 in Q10** Whether used portable devices and networks to access internet? (*yes -1, no -2*)						
11			**For age ≥ 15 years**	Whether able to send or receive emails? (*yes -1, no -2*)					
12				Whether able to perform online banking transactions via devices like computers, or mobile? (*yes: through UPI only -1, yes: through net*					

[Block 4] Usage of mobile, internet etc. by household members of age 3 years or more [i.e. entry (col. 4) ≥ 3] and with code 1 in either of Col. 5 or Col. 6 of Block 3									
				banking or other means (except UPI) only -2, yes: both (1 & 2) – 3, no - 4)					
13	**For code 1 in Q10.1**	Type of device used (majority of time) to access internet *(mobile phone -1, tablet -2, portable computer (laptop, notebook, netbook)-3, other portable devices (e.g. portable games consoles, watches, e-book readers etc.) -4)*							
14		Type of network used (majority of time) to access internet *(mobile data -1, wireless networks other than mobile data (e.g. WiFi) -2, other portable networks - 3)*							
15	**For code 1 in Q10**	Frequency of internet access during last three months *(at least once a day-1, at least once a week but not every day -2, not in every week-3)*							
16	**For code 2 in Q10** Reason for not using internet (major reason) *(internet service is not available in the area-1, internet service is available but it does not correspond to personal/household needs-2, do not know how to use it-3, don't know what internet is-4, do not need the internet-5, not allowed to use the internet-6, cost of equipment is too high-7, cost of the service is too high-8, lack of local content-9, privacy or security concerns-10, others-99 (specify))*								
Please ascertain the ability and execution of each of the following ICT skills separately for persons of age 15 years and above *who can use mobile phone/desktop computer/laptop/tablet/palmtop/notebook etc. [i.e. with entry 1 in Q4 orQ6 or Q8]*									
17	Whether able to use copy and paste tools to duplicate or move data, information, documents etc. (*yes - 1, no - 2*)								
17.1	**For code 1 in Q17:** Whether executed the skill of copy and paste during the last three months (*yes - 1, no - 2*)								
18	Whether able to send messages (e.g. e-mail, messaging service, SMS) with attached files (e.g. document, pictures and video) (*yes - 1, no - 2*)								
18.1	**For code 1 in Q18:** Whether executed the skill of sending messages during the last three months (*yes - 1, no - 2*)								
19	Whether able to create electronic presentations with presentation software (*yes - 1, no - 2*)								
19.1	**For code 1 in Q19:** Whether executed the skill of creating electronic presentation during the last three months (*yes – 1, no - 2*)								
20	Whether able to create electronic documents with word processing software (*yes - 1, no - 2*)								
21	Whether able to complain about cybercrime/ report cyber fraud in the cybercrime reporting portal (*yes - 1, no - 2*)								
[Block 4.1] Remarks									

[Block 5] Household use and access to telephone and internet*				
Qs. No.	**Question description**			**Code/Entry**
(1)	**(2)**			**(3)**
1	Whether household **possess fixed line telephone (landline)** for household use as on the date of the survey? *(yes – 1, no – 2)*			
2	Whether the household has access to internet facility ***within the household premises*** *as on date of survey* (*yes – 1, no – 2*)			
3	**For code 1 in Q2** Whether the household has internet connection through an optical fiber cable (*yes – 1, no – 2*)			
4	**For code 1 in Q2** Type of internet service availed within the household premises	(i)	Fixed / Wifi network *(yes – 1, no – 2)*	
		(ii)	Mobile network (via handset or USB modem etc.) *(yes – 1, no – 2)*
